

REV. DR. CHAMBRE

THE REV. ST. JOHN CHAMBRE

Observes 25th Anniversary of Pastorate at St. Anne's

At St. Anne's Episcopal church on Lowell was a small village of some 1200 people. "Naturally," said Dr. Chambre, "Dr. Edson was known to almost everyone, and he had a most extensive and often intimate acquaintance with those in the way associated with this parish. For all these years he went in and out of the church, and the work of his only predecessor, Rev. Dr. Theodore Edson, was continued by him when among his people, and the citizens of Lowell, each year adding to his influence, and making him easily the foremost and most revered figure in this city.

THREE TURKISH CONSPIRATORS HANGED BEFORE MULTITUDE IN CONSTANTINOPLE

Constantinople, May 17.—Three Turkish conspirators were hanged from a gallows before a multitude of people in Constantinople today. The gallows were erected in a public square, and the execution took place in the presence of a large crowd of people. The conspirators were hanged one by one, and the execution was witnessed by a large number of people. The gallows were erected in a public square, and the execution took place in the presence of a large crowd of people. The conspirators were hanged one by one, and the execution was witnessed by a large number of people.

Lowell, each year adding to his influence, and making him easily the foremost and most revered figure in this city. "He gained this position by his Christian character, and by his interest in whatever pertained to the real welfare of the community at large. His interest in the educational development of the town was recognized, and his name will forever remain in connection with our splendid public school system.

"But the secret of his power was in that he was a true parish priest and pastor. He never lost sight of his duties as such. With strong conviction, without reserve, and holding back no essential truth of revelation, he preached the gospel of our Lord and Savior, Jesus Christ, administered the sacraments, and reverently and ably conducted the services of the sanctuary, in accordance with his ordination vows, and in loyalty to the laws and ways of the church which had made him a priest of God."

Dr. Chambre, in closing words of his own labors here and his relations with the people, "The relation here, pastor and people," he said, "is very sacred and intimate, and should be fully appreciated only by those who have been many years associated with the same families as individuals. He creeps of the soul hidden from all but those who have been many years associated with the same families as individuals. He creeps of the soul hidden from all but those who have been many years associated with the same families as individuals.

So it comes to pass, that in a very real sense he bears his people on his heart, their wants, their woes, their virtues, their sins, as the high priest of Israel bore upon his breastplate the names of the twelve tribes, when he entered the holy of holies, to make intercession for them before the Ark of the Covenant of God.

"Care and anxieties and disappointments, sometimes heavy heartaches, have been experienced in these 25 years, yet they have been years of joy, and of deep gratitude to God, and to you, in view of the blessings which have crowned them. The parish, as well, has been uniformly and continuously kind and considerate, and of this kindness and consideration the rector has been keenly appreciative and with all his heart responds with sincere affection and thankfulness. The relation between the rector and the official board of the parish, the warden and vestry, has in no single instance been strained or disturbed. There have always been the most pleasant intercourse and harmony, and he believes that today he has their confidence and love. How grateful he has been for all this he cannot sufficiently emphasize. Doubtless there has often been opportunity for difference of opinion, and of views, but never has there been other than Christian kindness and consideration in the furtherance of the things pertaining to the kingdom of God.

"For his grateful and gracious relationship of rector and people for 25 years. What other years shall bring to him or to them, is wisely hidden in God's loving care. To Him is left the future in the calm truth, that He will surely do all things well—that He will follow mercy—that as we are true and faithful still He will crown this parish with manifold spiritual blessings, and with the prosperity that shall be wisest and best. To His unflinching love and care, you, my beloved people, are commended today, and forever."

When brought to Plymouth by Constable A. J. Hogan of the Plymouth police she was in a hysterical condition, and despite the efforts of the police, she could not be quieted. She claims that the arrest is an injustice and that her mother needs her aid. She was arraigned in the Plymouth district court this morning.

FIRE WAS CHECKED

It Had Burned Over Several Acres of Land

Several acres of land belonging to the Bowers Bros. at Willow Pond were burned over Saturday. The fire started back of the cottage in Bowers' avenue but at no time were the cottages in very great danger. The Tyngham fire department was summoned and with the assistance of other cottagers that were available succeeded, after a hard fight, in checking and finally quenching the fire.

"JOE" FLYNN MURPHY A HERO

Promises Great Catch He Succeeded in Ex-tinguishing a Fire

"Joe" Flynn, the Gotham street grocer, having shown the people of Maine his skill as a fisherman, has decided to give a few pointers to his countrymen in New Hampshire. Saturday "Joe" accompanied by his wife, Mrs. Flynn, and the others, left on the 1:30 train for Lake Umbagog where they will spend the next week in a cottage with "Joe" leased from Mr. Charles Bean. Mr. Flynn has also chartered a steamboat and has arranged every thing so that he will be able to make the trip successful. "Joe" got a great catch of fish from the Gotham street fishing club and told the "boys" that he would uphold the reputation of the organization and return with the greatest catch of speckled trout that ever was taken from New Hampshire waters.

LABOR LEADER

Man Came in Contact With Live Wire

PARIS, May 17.—M. Pataud, known as "King" Pataud, is the head of the electricians union, which has been plunged into darkness during the strike troubles in the French capital.

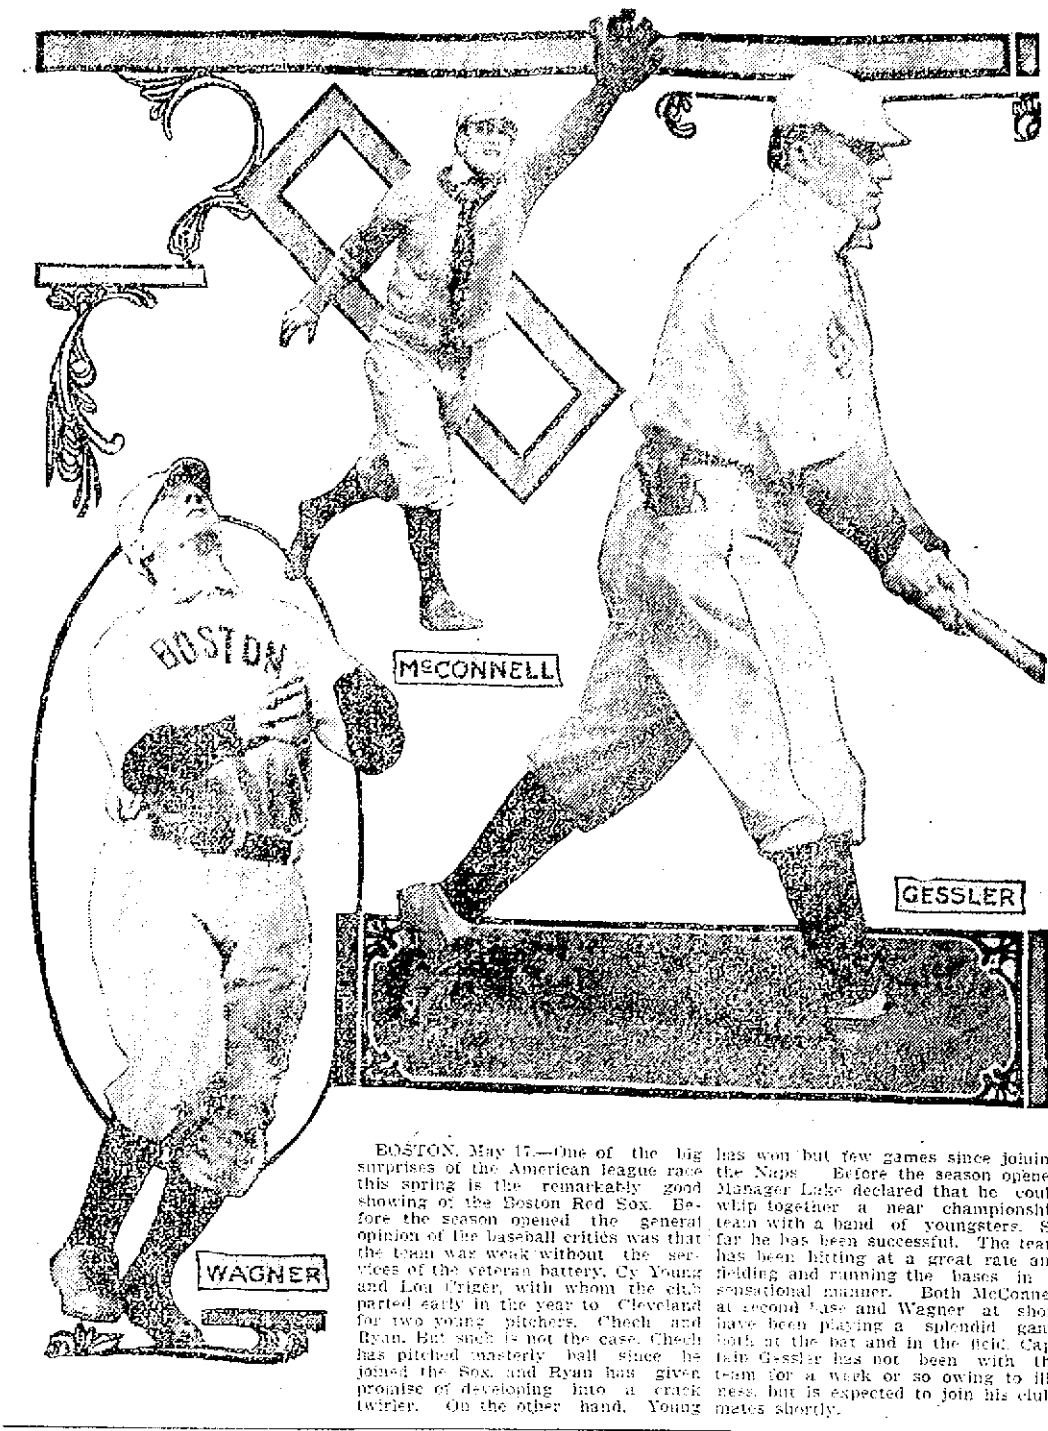

He has now been arrested by the striking postal employees and taken to the prison. The general Federation of Labor controls and a list of all trades in Paris, including the electricians, is being prepared. A general strike of all these trades will be proclaimed tomorrow.

LOSS IS HEAVY

FIRE DESTROYED BIG STORE-HOUSE AT PORTSMOUTH

PORTSMOUTH, N. H., May 17.—A fire which broke out at the big store-house of the Standard Oil Company at the railroad terminal here, Sunday morning, destroyed a loss of about \$100,000 and the loss of four men. The fire was caused by a gas leak and the company attributes the explosion to a quantity of stored torpedoes.

LOWELL BEATEN

Fall River Won Saturday's Game

Fall River played its second game with Lowell at Washington park Saturday afternoon before about one thousand fans, the majority of whom occupied seats in the bleachers.

DIAMOND NOTES.

Usher showed a big improvement after a few days' lay off. His hoisting has vanished.

Sunday baseball in the New England league started yesterday when Brockton defeated Fall River, 8 to 1, at Rocky Point, R. I.

The appearance of Fred G. Doe, at the game Saturday gave rise to the report that he was to take the team.

In the first of the fifth inning made a beautiful fielding play and in the next half of the inning threw out two batters.

Lowell made a fine catch in the first inning and the only man to hit on his delivery were Fleming, who made a single, and Venable who scored two hits.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and I thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YORNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing is known to do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

We never publish a testimonial without the special permission of the writer, and then only when we are sure it is genuine. Such testimony should create confidence in all suffering women.

The Young Americans played the first game of the season Saturday. The lineup of the Young Americans was: Rene, c; Devlin, p; McCusker, 1b; Mullen, 2b; Gallagher, ss; Bates, 3b; Douglass, 1f; Carroll, cf; Preston, rf. Send all challenges to James McCusker, 42 Summer street, or through this paper.

The Red Rover Seconds beat the Bartlett Stars by a score of 12 to 3 on the oval last week. This team would like to challenge any team in the city, under the age of twelve. Send all challenges to Frank Davis, 95 John street.

The Young Americans entered the field by defeating the Moody Juniors by the score of 5 to 0. The features for the winners were McGowan and O'Connell, for losers, Merritt and Connors.

The idea of putting a ball team in the field representing the Mathew Temperance Institute is a good one and there is no reason why the "cold water" boys cannot have a splendid team. Last year, it will be recalled, a team calling itself the Mathews played a series of splendidly fought games with the so-called Sanitary choir team and those games were for blood as any one who attended them will attest. The Mathews' team so-called, was not representing the local society, and it had

OUR FIRE RECORD.

Our record of bad fires, if the North Chatham mills be credited to Lowell as it is by insurance men, is greater than it should be. Our fire department is accounted efficient and no doubt it does good work, but in spite of this we are having too many serious fires. What the remedy is we cannot say except greater vigilance and more fireproof construction.

CUBA STARTS A LOTTERY.

The Cubans have started a lottery as a means of making money. They probably hope to revive the interest and secure the revenues that were formerly lavished upon the Louisiana lottery. They expect that the scheme will bring them an income of \$2,000,000. Cuba must have some advantage out of her national freedom. This lottery is injurious to any nation as it is a temptation to habitual gambling that may prove disastrous.

AN INTERNATIONAL PEACE ARMY.

In view of the atrocities committed at Adana, in Armenia, by the Turks, the need of an international army to be used in the interest of humanity is suggested as a permanent necessity.

We have The Hague tribunal in the interests of peace, but it families so determine they may get out and slaughter defenceless people by the thousands while that tribunal is deliberating upon treaties. There are nations that will observe no treaty and respect no law once the fixed order of things has been overturned.

If the great powers are sincere in their peace pretensions they should combine to maintain such an army and have it stationed near the storm centre so as to be at hand when the trouble begins. We have heard much about "peace compelling armaments," but this would be the real thing for the compulsion of peace. Nothing that the great powers have ever done conjointly would accomplish so much for humanity.

THE OPPOSITION TO THE MERGER.

There has been a great deal of talk against the railroad merger in political circles during the past two years. And it is doubtless a fact that many a politician has secured election on this issue alone by declaiming upon the dangers to the interests of the people should the merger become a fact.

It cannot be denied that the railroad mergers have been affected from time to time during the past twenty-five years as the progress of business demanded, and there was little opposition in some of the worst cases. There is no reason why the Massachusetts merger cannot be allowed with proper legal restrictions. We understand that it will mean a great deal for Boston in keeping that city a centre of commerce and traffic and making it a terminal of one other great railroad line. The opposition to the merger is operating against the interests of Boston and of New England. The legislature can lay down a policy that will protect the people's interests sufficiently with any form of merger that may be adopted. With this done the merger will have lost all its terrors and the politicians will have lost an issue upon which they can bluff the public.

TO ERECT A MONUMENT TO WIRZ.

The Georgia division of the Daughters of the Confederacy have come out in favor of a monument to Henry Wirz, the keeper of Andersonville prison. We cannot conceive a more ill advised step, inasmuch as the name of Wirz is associated with the horrors of Andersonville, which to this day make northerners who knew what it was shudder. Had Wirz proved to be a man of humane sympathy, or of magnanimity towards the prisoners of a conquering foe, then he might be worthy of having his memory honored. It is passing strange that a body of women should pick out such a character to be honored by posterity.

What did Wirz do to prove that he was anything better than a common place jailer who whether by the orders of his superiors or by the exercise of his own judgment presided over what has been well termed "a gigantic mass of human misery" with heart steeled against suffering when it was among the men who fought for the north. Was heroism and humane feeling so rare in the Confederate army that men of this type, the common law hangman and executioner, so to speak, must be honored by present and future generations? We cannot believe it.

THE PSYCHOTHERAPIST COMING.

Get out your dictionaries, your Greek and Latin lexicons to find the meaning of "psychotherapy," the new application of religion to the subject of healing. This is a combination of two words, psycho and therapy, the latter meaning the same as therapeutics.

The subject was discussed at considerable length by the Episcopal convention in Boston the other day. Some prominent speakers at the meeting were frank enough to acknowledge that they never heard of the word before, while others scoffed at it as a new form of religion. A Christian Science and other alleged forms of healing. Religious and medical men alike recognize that there are some diseases, mostly nervous disorders, that may be helped by acting on the patient's imagination, so as to cause a change in their character and effect on the body. Such diseases are not present ailments and being on now. Every doctor of experience has met such patients and knows just how to treat them. Instead of medicine he requires a supply of platitudes. There is still need of a new, positive religion, faith even as affecting the physical condition by reflex action, but this cannot be imparted by any science, for the underlying principle of which is that by an effort of the imagination, you can effect physical cures. The Episcopal convention decided wisely that psychotherapy is something upon which the denomination may well afford to go down.

It is really, astonishing how many new things you absolutely must have, when you could get along with the old ones quite as well.

HOW'S YOUR LIVER?

The principal work of the liver is the secretion of bile—a golden brown, mucilage-like substance, composed of certain liver elements, salts, sugar and coloring matter. It is the natural antiseptic and catalyst of the bowels. A torpid liver means defective secretion, which causes chronic constipation with its attending evils.

The liver plays a most important part in producing healthy digestion. Its absence results in congestion of the bowels, with depression and to correct and secure healthy bile secretion Smith's Pile-A-Pop and Liver Pills have a very selective action on the liver and cleanse the bowels, driving the fecal contents out of the body which, if permitted to remain, would poison the whole system and rapidly undermine the general health.

Never work yourself to become bilious. A sick headache, a sudden attack of indigestion, or a fatal diarrhoea with dizziness and a yellowed tongue call for the prompt use of

They are by far the best remedy to empty the bowels and relieve congested conditions. They act as a true tonic to the liver, preventing as well as curing constipation. Ex-Gov. W. M. Dawson of West Virginia is understood to have declined a foreign appointment from President Taft in order to remain at home and continue to take a leading part in the direction of republican party affairs in his state.

The new professorship in the department of teaching, University of Vermont, has been filled by the appointment of Dr. J. P. The Englishwoman's Review records the struggle of Mrs. Cighera to attain to the position of "sworn translator," or, as the English put it, interpreter, in France. In this country the position is chiefly valuable at Ellis island, where there must be those capable of understanding and talking with the immigrants from every quarter of the globe. Still that is not the position sought for long and just attained by this clever woman, for the "sworn translator" is more than this; the person must be qualified by being personally conversant with many languages (instead of two or three which is the usual limit in court interpreters in this country), must have a wide general culture, and sufficient knowledge of penal, civil and international law in order to assist witnesses and principals in litigation before the tribunals of France. With Mrs. Cighera to attain to the position of "sworn translator" is comparatively easy matter to qualify. In the first place she came of a family of linguists. Her father, English, and her mother, German, each knew three languages; her husband, who was a sworn translator, was an Italian, and she is a naturalized French woman. Every since her husband died ten years ago she has vainly applied for the place. There was no reason why a woman should not hold the position, only no woman had ever done so. However, recently an important case came up of translators and Mr. Furber, president of the court of appeals in Paris, insisted on an examination of all candidates, even those

now employed. At the close of it out of 62 only 22 remained. Mrs. Cighera applied and was authorized to compete, with the result that she was accepted and is now happy, having attained the desire of many years.

TWO LIVES LOST

Brothers-in-Law Were Drowned in Long Pond

A particularly sad drowning accident took place at Long pond Saturday evening, when Arthur Rivard and Harry Frost, brother-in-law, who resided together at 151 Tilden street, were drowned while fishing.

John E. Colombo, who accompanied them and who lived in the tenement above them at 151 Tilden street, had a narrow escape from drowning and was brought home in an exhausted condition.

Frost's body was recovered early Sunday morning by Undertaker Savage, while Rivard's body was recovered in the afternoon by Undertaker Albert. The bodies were brought home and were laid side by side in the parlor of Frost's home, where Frost's young wife was almost prostrated at the loss of her husband and brother.

The men went out to Long Pond about 8 o'clock in the evening to fish all night, and Mrs. Frost and Mrs. Colombo went to join them yesterday at Lakeview for a day's outing.

The accident occurred about 10 o'clock. They were fishing about 100 feet from the shore and decided to change their location. One of them drew up the weight and served as anchor, but instead of dropping it in the bottom of the boat dropped it on the edge, causing the boat to capsize and precipitating them in the pond in utter darkness.

Colombe, who could swim, struck out for the shore and arriving as he supposed within his depth attempted to wade ashore only to sink in mud to his armpits. His screams attracted another party of fishermen, who located him with the aid of lanterns and dragged him ashore.

Colombe states that he saw nothing of Frost after the boat capsized, and came to the surface once, and Colombe caught him and attempted to pull him along, but Rivard freed himself, crying out, "Let go, Jean!"

Frost was employed in the Tremont and Suffolk, and Rivard at Foster's shoe shop in Wile street. Frost left his father, George A. Frost, of East Somerville, and two sisters, Mrs. Florence E. Bowes of East Somerville and Mrs. Daisy E. Rich of Winthrop, besides his wife. Rivard left a brother, Joseph Rivard of Stoneham, and three

sisters, Mrs. Adelaide Tessier and Mrs. Della Gilbert of New Hampshire, and Mrs. Frost.

VERDICT OF GUILTY

Ex-Pres. McCullough and Lawyer Cassidy Found Guilty

BOSTON, May 17.—A verdict of guilty was reported in the superior court today by the jury in the case of Leo McCullough, former president of the Boston common council, and his attorney, James T. Cassidy, on charges of conspiracy and larceny. Sentences were deferred and counsel for the defendants stated that they would carry the case to the supreme court of Massachusetts on exceptions which they were given until June 12 to file. The exceptions will be based upon portions of Judge Schofield's charge to the jury and also on the allegation that when the grand jury was hearing the evidence which resulted in the bringing of indictments against the two men certain witnesses were allowed to hear

Carriage Was Hit by a Locomotive

CLINTON, May 17.—John Kelley and John Gibbons were instantly killed last night when a locomotive drawing the train from Fitchburg to South Framingham over the New York, New Haven & Hartford railroad struck their heavy carriage.

The vehicle hung suspended from the cowcatcher, but the men's bodies were thrown out and to one side.

The horse behind which they were driving was cut nearly in two.

Kelley was married and leaves a wife and three children. He was a weaver by trade and about 35 years old. He and Gibbons, who was unmarried and about 20 years old, were fellow workers and chums.

The men were on their way home from Sterling in a hired rig.

AFTER IRATE FATHER FIRED TWO SHOTS AT HIM

DAYTON, O., May 17.—Edward Kennedy, aged 26, was captured by a mob in North Dayton yesterday after two shots had been fired at him by Black Williamson, father of Annie Williamson, aged 15 years.

Kennedy is accused by the police of having enticed the little girl into a vacant house near her home. The father, hearing of the affair, pursued Kennedy, firing two shots at him. The shots attracted the attention of a crowd in a nearby hotel park and about five hundred men and boys joined Williamson in pursuit of the man. Kennedy was captured half a mile from where the chase began. Williamson asked that Kennedy be turned over to the police and it was done.

CHAIRMAN STEARNS

Says Mayor Brown Never Notified Board of Any Violations of Law

Mr. Stearns Says That Common Victuallers' Licenses on the Race Track for One Day Were a Public Necessity—The Hearing of Police Board Charges Resumed Today

This is the thirty-second day of Mayor Brown's police board hearing and today's session was begun at 10 o'clock, sharp. There were a few preliminaries that were unimportant and then followed Mr. Bent's examination of Mr. Stearns.

Mr. Stearns testified to the examination of the records of the police board that went to the board on March 16. He said that the greater part of three weeks was spent in the examination. To be correct as to the time consumed, Clerk Flaherty of the police board read from the records that the mayor's examination of the records was begun Feb. 24 and ended March 16.

Mr. Stearns told of the number of days that he was present at the office of the board when the records were being examined. He said that the board tendered the mayor all the assistance possible. The mayor and his assistants were given all the papers they wanted to constitute the records of the board.

Mayor Brown asked Mr. Stearns if he was aware that the reports of officers for the first six months in 1908 had been kept for a time from the mayor and were only forthcoming after several requests by counsel for the mayor.

Mr. Stearns replied that he did not know that any report or paper of any description had been withheld. It was the disposition of the board, he said, to afford the mayor all possible assistance in his examination of the records.

Asked by Mr. Bent if the mayor had ever pointed out any violations of the liquor law to the board, Mr. Stearns said he did not.

"Did you know, before this hearing, that the mayor had employed spotters to investigate common victuallers' places?" asked Mr. Bent.

"I did not," replied Mr. Stearns. "Did the mayor ever tell the board that these places should be investigated?"

"He did not,"

Mayor Didn't Point Out Violations

"At any time did the mayor call the board's attention to the fact that any of the liquor laws were not being properly enforced on Sundays and holidays?"

"He did not,"

"Did the mayor ever say anything to the board about sales to minors or about minors loitering about licensed premises?"

"He did not,"

Mr. Stearns was taken back again to the question of the suspension of certain hotel licenses for 24 days.

It was charged that this was not done in good faith on the part of the board, and this was answered by Mr. Stearns, who said that the board did act in good faith.

One of the mayor's charges against the board carried the soft impeachment that the board assisted hotel keepers whose real object and method of doing business was to evade the law with regard to the observance of the Lord's day.

Mr. Stearns very emphatically denied the charge, and in reply to questions by Mr. Bent, Mr. Stearns said the mayor had never pointed out to the board, from the date of his inauguration to March 17, the date of the filing of the mayor's charges against the board, any attempt on the part of the innkeepers or anybody else to evade the law with regard to the observance of the Lord's day.

Asked relative to the granting of common victuallers' licenses, Mr. Stearns said that he was on the day of the big automobile race, Labor day, 1908, Mr. Stearns said:

"The occasion which brought forth the granting of those licenses was unparalleled in the history of Lowell."

"The race was under the patronage of the National Automobile association. There was much advertising, agitation and enthusiasm accompanying the event and the celebration was one of great interest to Lowell."

It was a ten mile course and it was expected that the course would be lined with spectators. Under the conditions that would prevail the great mass of people would be confined there from early in the day until 5 o'clock in the afternoon.

The management of the race acquainted the board with the facts. The management proposed that on the day of the race Lowell's population would be doubled and good authorities, after the race, said that the prophecy came true.

Applications for common victuallers' licenses to sell food on the race course were made only very early in the day and the board thought it was right but necessary that the licenses should be granted.

"On the 10th of April, 1903, great throngs gathered in the towns of Concord and Lexington. It was the celebration of the 25th anniversary of the battle of the Clouds and celebrities from all over the country were there."

The occasion was graced by the presence of Gen. Grant and of that splendid old soldier only one adverse criticism could be made, and that was the utter incapacity to feed the assembly.

This very incident, although a long

hark back, through the misty years, influenced the board more or less in the granting of common victuallers' licenses on the boulevard on Labor day. The board has always thought that it would have been derelict in its duty had it failed to grant the licenses in question. The board did not want the people to leave the scene of the great race hungry and disappointed. The board acted in good faith."

Mr. Stearns said the board did not feel it incumbent upon it to revoke the licenses that were granted for one day only. The board believed that at the end of that day the licenses expired.

Lost Their Licenses

Asked if the board had caused to be made any investigation of the premises of holders of common victuallers' licenses throughout the city, Mr. Stearns said it did. The investigations, he said, were made in consequence of information given the board by Supt. Morfitt. He said that as the result of the investigations the thirty-five common victuallers lost their licenses because they declined to or could not serve a meal. There were forty-one common victuallers complained of but the licenses of six of them expired before the board could get round to hear them. The board's time was fractured by the present hearing.

"Did the board expect to hear the complaints against all of them?" asked counsel for the prosecution, jokingly, and Mr. Stearns, in the same spirit, arose from his chair and as dramatically as conditions and surroundings would permit, said:

ers were called before the board and were talked to, admonished and advised as to their general conduct in the streets. The little 'talking to' was not due to any complaints that had been received but because of the personal observations of the board members and was along the line of improved discipline.

Mr. Stearns was still under direct examination at 1 o'clock, the time for the noon adjournment, but as Mr. Bent had nearly finished with him, the hearing was continued until he had done so. It was then about 1:20.

CAPT. MARSHALL

Sees That American Interests Are Protected

MERSINA, Asiatic Turkey, Sunday, May 16.—Captain Marshall commanding the United States cruiser North Carolina now in this port had a conference with the governor of Adana province yesterday. As a result full protection has been promised American interests in Adana and guards are patrolling the American property there and elsewhere.

Many thousands of unfortunates in the refugee camps are huddled together and there is lack of food, shelter and medical aid. The authorities are trying to improve the situation and send the refugees back to their farms.

Many Armenians are quartered at the American missions and most of them decline to leave because of their lack of confidence in the protection offered. The greatest danger is from epidemic in the overcrowded camps and missions. Measles and typhoid already exist. The refugees must be dispersed as soon as possible. Money contributions are greatly needed. Captain Marshall is giving a medical relief party up to Adana.

The North Carolina will remain here for the present.

ADMIRAL HARBER

Granted an Audience by Japanese Emperor

TOKIO, May 17.—Rear Adm. Harber, commanding the Asiatic squadron of the Pacific fleet, with his staff and the captains of the ships composing the squadron, were granted an audience with the emperor and the empress today. The officers were presented by American Ambassador O'Brien and Admiral Harber was engaged in conversation with the emperor for several minutes.

In an interview Admiral Harber said:

"I came to Japan entirely on my own initiative and had no thought of any special reception to the squadron, but on my arrival found that preparations had already been made to give us a hearty and enthusiastic welcome and reception, all of which my own feelings naturally and cordially responded."

"It seemed exceedingly opportune that this visit should occur just when Admiral Ito's training squadron is being welcomed at San Francisco, a place which, despite the clamor raised by one element of the press, is another element that at heart the people of both countries have not only a desire of the continuance of American cordial relations, but also a sincere respect and regard for each other."

The official entertainments and social receptions tendered to my officers, men and myself by the Japanese have impressed me deeply. The kindly words and sentiments expressed have been so spontaneous that no one present could doubt the depth and sincerity of the cordial relations that have always existed between the two countries. This feeling is now perhaps deeper and stronger than it was before."

Admiral Harber has made an unusually favorable impression on all with whom he has come in contact during the visit of the squadron, and he will leave Japan as one of the most popular American officers ever entertained here.

FIVE MEN HANGED

For Complicity in Murder of Officers

CONSTANTINOPLE, May 17.—Five more men were hanged this morning in front of the building of parliament opposite the mosque of St. Sophia in Stambul. They had been found guilty by court martial of complicity in the murder of their officers in the revolutionary outbreak of April 13. Among them was one non-commissioned officer; the others were junior officers. The five men sang hymns while they were being conveyed from the war office where they had been confined to the place of execution. They continued their songs while the final preparations for the execution were being completed and up to the very moment when the stools on which they were standing with the ropes around their necks were knocked out from under their feet. All through the condemned men were as calm as though saying their prayers in a mosque.

CRUISER MONTANA ARRIVES

ALEXANDRETIA, Asiatic Turkey, May 17.—The American cruiser Montana arrived here today. Alexandretta is quiet.

STATE TAXATION

Report Deals With Conditions in New England

WASHINGTON, May 17.—A unique and interesting report dealing with state taxation of mercantile, marine and transportation corporations was made today by Herbert Knox Smith, commissioner of corporations. That part of the report transmitted to President Taft concerns particularly the six New England states. It is expected that additional parts dealing with other groups of states will be published later.

A careful investigation into the tax laws of each state was made by Commissioner Smith and the results of the inquiry are presented in concise form. The report presents in a popular way a digest of the tax laws and the methods of their administration.

While in a sense it is a legal publication it was prepared rather for the general purpose than for lawyers. It contains much information particularly interesting to legislators and all other students of taxation. Commissioner Smith points out that while the taxation of individuals throughout New England is on substantially the same basis there is a wide diversity among the several states in both the theory and practice of the taxation of corporations. He notes particularly the Massachusetts plan of taxation of corporate excess on the market value of stockless property otherwise taxed. It is pointed out too that Massachusetts alone succeeds appreciably in efforts to tax specially the manufacturing and mercantile corporation.

Railroads, it is noted, are among the largest tax payers. Public service corporations are most often brought under new systems of taxation. A review of the tax systems of taxation indicates to Commissioner Smith that the entire subject matter is still in an unfinished condition and will need yet further careful thought and consideration.

AUTO RACE BILL

Went Through Rules Committee This A. M.

A hearing on the Lowell Automobile race bill was held before the committee on rules of the legislature. In attendance were John O. Heinze, James Gilbert Hill and John A. McKenna. As Mr. Hill arose to speak in favor of the bill, the chairman of the committee on rules inquired if there was any opposition and as there was none the committee closed the hearing forthwith and will report favorably upon it.

A hearing will be held on Thursday before the committee on roads and bridges of which Senator Hibbard is chairman and the senator believes that no obstacle will be placed in the way of the promoters of the race.

QUEEN AMELIE

Receives Honor From King Manuel

LISBON, May 17.—King Manuel has bestowed on Queen Amelie, widow of King Carlos, the decorations of three orders for the heroism displayed by her majesty on the occasion of the assassinations of her husband and son in February of 1908. These orders are the order of Christ, the order of Santiago, and the military order of St. Benito d'Avila. The cabinet has given its approval to these decorations, never before conferred upon a woman.

His majesty has decorated also the policeman who shot Buissa, the man who killed the king, with the order of the Tower and Sword. This decoration gives the recipient the rank of an officer and entitles him to a royal pension.

LOWELL MEN

TOOK PART IN CELEBRATION IN LAWRENCE

LAWRENCE, May 17.—The Ecco Homo celebration by the Portuguese community took place yesterday, council 12, R. M. A. B. A. L., entertaining St. Michael societies from Boston, Cambridge, Fall River, New Bedford, Provincetown and Lowell. The visitors were met at the station by the local branch and escorted by several bands, paraded to St. Peter and Paul church, where solemn high mass was celebrated. Rev. Fr. Paul Desposy, pastor of the church, was celebrant. Rev. Fr. Travasso of New Bedford, deacon, and Rev. Fr. Vinas of South Lawrence subdeacon. The sermon was preached by Rev. Fr. Travasso.

After the service in the church the council proceeded to the city hall, where a banquet was served, followed by speechmaking. The speakers included Dr. Joseph Lima of Fall River, supreme president; Paul M. Perry of New Bedford, supreme secretary; Felix Silva of New Bedford, Jesse Travasso, president of council of Boston, and John B. Sears, president of the local council.

Mayor White occupied a seat in a carriage in the parade. Joseph L. McLoe was chief marshal and Jesse Rodolfs chief of staff. About 1000 were in line.

PROF. WILDSTEIN

BECOMES HUSBAND OF MRS. THEODORE SELIGMAN

LONDON, May 17.—Charles Wildstein, professor of fine arts at Cambridge university and Mrs. Theodore Seligman of New York, daughter of the late David Seligman, were married at the registry office here today. The marriage was thus quietly celebrated on account of the very recent death of Mrs. Seligman's father, Lewis Seligman, secretary of the American embassy at Constantinople, gave his sister away.

PRESBYTERIAN COMMISSIONERS

PHILADELPHIA, May 17.—Presbyterian commissioners from Philadelphia and vicinity to the 21st annual session of the lawmaking body of the Presbyterian church at Denver left here today in a special train for the west. The party is headed by the Rev. Dr. William Henry Roberts, former moderator of the general assembly and now the state clerk.

Among the important questions that will come up for consideration will be a plan to hold triennial instead of annual sessions. Dr. Roberts does not favor triennial meetings. A reduction of the number of commissioners to the assembly will be considered. Since the absorption of the churches and church, the governing body has become unwieldy and many believe that better results will ensue if there are fewer men to make legislation.

A commission will ask for \$3,000,000 for a uniform budget for benevolent and mission funds.

DR. GALLOUPE DEAD

LYNN, May 17.—Dr. Isaac Galloupe, a widely known physician and a prominent civil war veteran, died at his home here today of old age. He was born Jan. 27, 1823 and was graduated from Harvard medical school in 1849. He was one of the survivors of the 1862 prison. He is survived by two sons.

JAMES J. GRAY STEAMER'S CREW

May Buy the Lowell Laid Up With Malarial
Baseball Franchise Fever

James J. Gray may be the new owner of the Lowell baseball team. Mr. Gray has been in communication with the management of the team and is willing to do anything that is reasonable to secure the team. All he wants is the franchise and if he secures that he says he will place in Lowell one of the strongest teams in the league. Manager Winn has set a pretty price for his team and Mr. Gray has told him what he is willing to give for the franchise. This noon Mr. Gray and Mr. Winn went to Boston and talked over the matter and it is likely that before night a deal will have been made whereby Mr. Gray will become owner of the Lowell team, and steps will be taken at once to secure players who will be able to hold their own with the best in the league. Every lover of the game in the city would be pleased if Mr. Gray secures control of the team for they know from his actions in sporting events in the past, that if money can bring the "goods" to Lowell, the Spindle city will be favored.

NEW YORK, May 17.—The British steamer *Verona* arrived today from Kingston, Jamaica, with practically a new crew on board having left fifteen men in a hospital at Kingston suffering with pernicious malarial fever. The disease was contracted while the steamer lay in the Madroira river about 100 miles from Para, where the crew, although screened at night with mosquito nettings, could not altogether escape the attacks of mosquitoes.

FIVE ESCAPED

Men Got Away From
Rutland Prison

RUTLAND, Mass., May 17.—Half a dozen armed deputies and double that number of townspeople took part yesterday in a search after five men who escaped from the hospital department of the Massachusetts prison camp here last night.

The search had been prosecuted most of the night and early morning, save a short lull about midnight, and was continued yesterday, but no trace of the men, all of whom were garbed in the prison uniform of gray, was found. During most of the day a heavy rain fell, making doubly tiresome the work of investigation.

The men who escaped are Henry Tyler, colored, 28 years old; Frederick Williams, 19; Timothy E. O'Callaghan, 24, and Charles Moore, 27, all of Boston, and Joseph Murtagh, 36 years old of New York. All were serving sentences for larceny and were temporarily inmates of the hospital. They made their escape by sawing window bars. What direction they took is unknown.

BARLOW'S BILL

TO AID MRS. GUNTHER FAVOR-
ABLY ACTED UPON.

The measure introduced by Rep. Barlow of this city to increase the pension allowed Mrs. Gunther of Dracut, whose husband received fatal injuries at the Direct rifle range was reported favorably by the committee on ways and means of the state legislature and has passed the lower branch of the legislature. It will now go to the senate.

FINE PROGRAM

AT MEETING OF BRANCH LADY
WOLF TONE

At the meeting of the Branch Lady Wolf Tone, Irish National Foresters, yesterday, the following program was carried out: Address, M. J. O'Neill of Lawrence; vocal selection, John E. McKelvey, accompanied on piano by Emerille Byron; address, Edmund Russell; vocal selections, Mrs. Mullin and Margaret Begley of Lawrence; address, Mrs. Kate Boyle of Worcester; vocal selection, Thomas Herley of Lawrence; address, ex-Mayor James B. Casey; reading, Mary J. Conway of Lawrence; vocal selection, Lizzie Lynch; reading, Thomas Herley of Lawrence; selections by John Logan of Lawrence and Patrick Carey. JOHN A. KEYES

LOWELL BOY IS IN SERIOUS
CONDITION

John A. Keyes, son of Mr. and Mrs. Henry F. Keyes of this city, has undergone an operation for appendicitis in New York city and is very ill. His parents and his three sisters left for New York last night. The young man, who has been employed as head clerk in the Garden City hotel, Garden City, L. I., is well and favorably known in Lowell, and his many friends will be glad to hear of his very serious illness.

PRESENTED A WATCH.

Wm. Brennan has retired as foreman in the carding department of the Tremont & Suffolk mills, having held that position for about 25 years. Both the management and help regret to lose so capable and popular a man as he has proved to be. In token of their esteem his friends presented him with a handsome gold watch. Mr. Brennan leaves shortly to spend the summer months with his father in New York state.

THE EXTRADITION TREATY

PARIS, May 17.—The French government has accepted the amendments to the Franco-American extradition treaty suggested by the American senate. This insures the ratification of the measure.

NEW AMERICAN AMBASSADOR

PARIS, May 17.—Henry C. Ide, the newly appointed American ambassador to Spain, has arrived here from New York, accompanied by his daughters. Mr. Ide will go to Madrid early in June to present his credentials.

MISS HAZARD

HAS RESUMED HER DUTIES AT
WELLESLEY COLLEGE

WELLESLEY, May 17.—It was with renewed strength and vigor that Miss Caroline Hazard, president of Wellesley college, resumed her duties at the head of that institution today after an absence of nearly a year.

Miss Hazard has spent much of her time in California although during the past few weeks she was at her home in Rochester, N. Y.

DARING ROBBERY

Burglars Got Gold Plate
and Money

BOSTON, May 17.—Gold plate and silverware valued at \$2000 and \$500 in cash were secured by burglars at the dental supply house of Cummings & McGrath on Boylston street some time last night. The burglary was reported at police headquarters today. The thieves blew open the safe and departed with their plunder without leaving any clue as to their identity.

HIS EMPLOYEES

PRESENTED SUIT CASE TO
OVERSEER SHACKLETON

The employees of Mr. William Shackleton, who for a number of years has been in charge of the wool finishing room at Walsh's mills, gave him a great surprise a few evenings ago when they assembled at his house in Carter place and presented him a dress suit case. The presentation speech was delivered by Frank Eccleston, Mr. Poppowell was chairman of the evening, and there were vocal solos by Mr. William Dugan and several others. Mr. Shackleton will sail tomorrow for England, where he will spend his vacation.

HAS RETIRED

REAR ADMIRAL SWINBURNE
HAULS DOWN FLAG

SAN FRANCISCO, May 17.—Rear Admiral Swinburne, commanding the Pacific fleet hauled down his flag on the cruiser *West Virginia* today having reached the age of retirement and Rear Admiral Uriel Sebree, commander of the second division of the fleet took command of the whole, raising his flag on the cruiser *Tennessee* which will hereafter be the flagship. The cruisers *Tennessee*, *Washington*, and *California* sailed for Seattle today to take part in the naval review at the opening of the Alaska-Yukon exposition and the other three cruisers will follow about May 21st.

THE DATES FIXED

For "Exams" for Train-
ing School

As will be seen by notice elsewhere the examination of candidates for admission to the Lowell Training school for teachers will be given this year on Friday, June 4, and Monday, June 7. Candidates must be graduates of a college of the first class or of a normal school.

The examination will be of the same general character as in the last five years. It will consist of a written test of exercise in English composition, a written test in mathematics (arithmetic and algebra) and a test in spelling, an oral examination in reading and a last test consisting of the giving of a lesson to a class of children. For this teaching exercise candidates may select their own subjects, and may choose the grade of children to whom they wish to give the lesson. The teaching period should not be more than fifteen minutes, and may better be no more than ten if the subject chosen can be properly presented in that time.

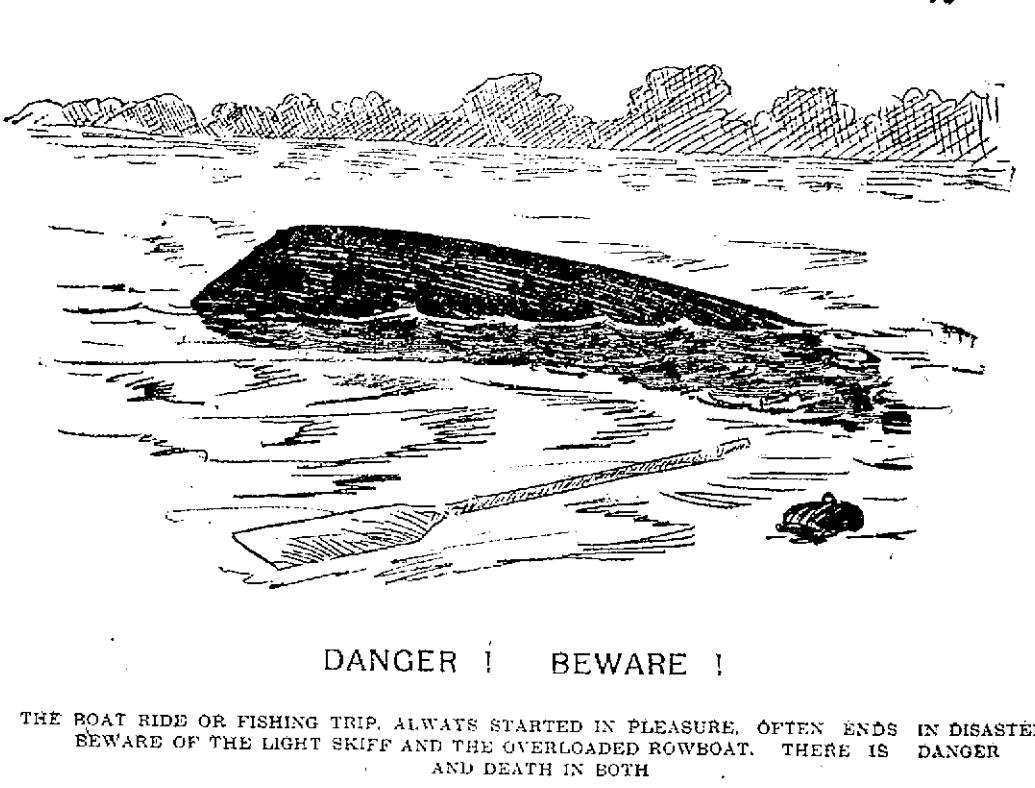

The number of candidates to be accepted has not been stated, and may not be decided until after the examination. It is intended to be such as shall keep the primary and grammar schools supplied with teachers and have an occasional teacher left over for the High school. The number in the past has usually been from 12 to 15, of whom about one-third have been from colleges and the rest from normal schools.

WILLIAMS RESIGNS

GIVES UP PLACE AS CIVIL SER-
VICE COMMISSIONER

WASHINGTON, May 17.—James T. Williams, Jr., today tendered to Mr. Taft his resignation as a civil service commissioner. Mr. Williams was appointed only a few weeks ago and is leaving the service because of impaired health. He will take up his residence in Fort Bayard, New Mexico, where he hopes to be greatly benefited by the climate. Mr. Williams was formerly a newspaperman in this city. During the campaign he served first as secretary to Chairman Hitchcock and later represented the national republican committee on the long campaign tour made by Mr. Taft.

DEATHS

COBURN—The many friends of Mrs. Lydia Carter Coburn will be pained to learn of her death Saturday at her home, 735 Varnum avenue. While she was well advanced in years, her death was entirely unexpected, as she was apparently in her usual health Friday.

Mrs. Coburn was born in Lowell 30 years ago and had lived here all her life. To the last she retained her faculties, and her remains will be interred in the Catholic cemetery of Lowell and Lowell people were always interested. Although she made her home in Pawtucketville, where her friends were numerous, she had a wide acquaintance in Lowell and the splendid qualities of her character were recognized by all with whom she came in contact.

She leaves two children, Mrs. Kate P. Butler and Clarence G. Coburn of this city, and four grandchildren, Mrs. F. C. Cox of Hyde Park, Mass., C. F. Butler of Hillsboro, N. H., J. B. Coburn of Lowell, C. Elliott Coburn of New Bedford, and one sister, Mrs. E. H. Chandler of Nashua, N. H., and one brother, Townsend Carter of Lowell.

MINTER—James Minter, a well known resident of Lowell, died Sunday morning at his home at the corner of Broadway and Rote street. He was within a few days of being 75 years old.

James Minter was born at Water town, May 28, 1835. He served his time as machinist and blacksmith with Otto Patte of Watertown.

He married Elizabeth Roberts in 1854 at Newbury Falls, Vermont. The business of his father was soon established in a successful blacksmithing business of his own. During the civil war he had many contracts with the government for forges, etc.

In 1878 he patented the first successful bolt-making machine during the war, automatically that heretofore had required manual labor. This machine proved successful and was extensively used here and in England, and brought its inventor to the attention of bolt-manufacturers in general. In 1888 special inducements were offered Mr. Minter to come to Lowell and join his skill and experience with that of Messrs. Higgs and Butcher in the manufacture of bolts of all kinds. The business proved very successful. In later years the company was incorporated as the American Bolt Co. Mr. Minter being the first president. He retired from all active business in 1874, devoting his time to his per-

sonal interests, visiting the south for many winters and spending his summers at his beautiful home in Rote street.

He retained his health and vigor to a remarkable degree, and was in full enjoyment of life, until his final illness, dating back to the middle of February.

HUNTRESS—Mrs. Harriet Paige Huntress died yesterday in Concord, New Hampshire. She was the widow of James L. Huntress, who died about 25 years ago, and who was well known in this city and elsewhere. In his early manhood, Mr. Huntress was one of the proprietors of the American house in this city, and later became well known as the owner of the Senter house in Centro Harbor, N. H., one of the best known hostilities in the White mountains at that time. "Traveling was done by stage and every stage stopped at the Senter house. The order inhabitants of Lowell will remember Mr. Huntress very well. He was at one time the captain of the Mechanic Phalanx, now Co. C.

Mrs. Huntress leaves two sons, George L. of Boston, and Henry L. of Concord, N. H., and one daughter Harriet L. also of Concord.

CASEY—John Casey, a veteran of the Civil war, died yesterday at the city hospital. The body was removed to the rooms of the Saunders undertakers' establishment.

MCCORMICK—Patrick McCormick died Sunday morning at his home, 3 rear of 121 Charles street. He leaves besides his wife Mary, four sons and one daughter.

BENT—Miss Sarah L. Bent died Saturday at the Lowell hospital, aged 18 years. She leaves besides her father, Edward Bent, three brothers and one sister.

WHELTON—John Whelton died Saturday at the Massachusetts Eye and Ear infirmary in Boston, at the age of 10 years and 10 months. He leaves his parents, Jeremiah and Ellen Whelton, of 13 Lombard street, and four sisters, the Misses Annie, Mary, Nellie and Teresa. The body was brought to this city by J. F. O'Donnell & Sons.

HUNTER—Mrs. Hannah Hunter died yesterday at her home, 8 Brickett avenue, off Smith street. The funeral will take place tomorrow morning at 9 o'clock from the house. High mass of requiem at St. Peter's church at 9 o'clock. T. J. McDermott, undertaker.

TIGHE—Mrs. Bridget Tighe, widow of the late Lawrence Tighe, and a well known member of St. Patrick's parish, died today at her home, 4 rear of 165 Adams street. She is survived by a son Edward and a daughter Margaret.

FUNERAL NOTICES

FIRE WAS CHECKED

It Had Burned Over Several Acres of Land

Several acres of land belonging to the Bowers Bros. at Willow Dale were burned over Saturday. The fire started back of the cottages in Bowers avenue but at no time was the cottages in very great danger. The Tuxborough fire department was summoned and with the assistance of what cottagers that were available succeeded after a hard fight, in checking and finally subduing the fire.

"JOE" FLYNN MURPHY A HERO

Promises Great Catch He Succeeded in Extinction of Speckled Trout

"Joe" Flynn, the Gosham street grocer, having shown the people of Maine his skill as a fisherman, has decided to give a few pointers to his countrymen. New Hampshire, Saturday, "Joe" accompanied by his wife, his son, "Young Joe," and the father's wife, left on the 1:25 train for Lake Umbagog where they will spend the next week in a cottage which "Joe" leased from Mr. Charles Bean. Mr. Flynn has also chartered a steamboat and has arranged every little detail that will help to make the trip successful. "Joe" got a great catch of speckled trout, that were taken from New Hampshire waters.

FIRE DESTROYED BIG STOREHOUSE AT PORTSMOUTH

PORTSMOUTH, Va., May 17.—Fire of unknown origin accompanied by an explosion, destroyed the general storehouse of the Seaboard Air Line Railway company at the railroad terminals here, early yesterday, entailing a loss of from \$100,000 to \$150,000 and the injury of four men. The injured men will probably recover. Officials of the company attribute the explosions to a quantity of stored torpedoes.

THREE STARS OF THE BOSTON RED SOX, SURPRISE OF AMERICAN LEAGUE RACE

BOSTON, May 17.—One of the big surprises of the American league race this spring is the remarkably good showing of the Boston Red Sox. Before the season opened the general opinion of the baseball critics was that the team was weak without the services of the veteran battery, Cy Young and Lou Criger, with whom the club parted early in the year to Cleveland for two young pitchers, Check and Rizer. But such is not the case. Check has pitched masterly ball since he joined the Sox and Ryan has given promise of developing into a crack twirler. On the other hand, Young

LOWELL BEATEN

Fall River Won Saturday's Game

Fall River played its second game with Lowell at Washington park Saturday afternoon before about one thousand fans, the majority of whom occupied seats in the bleachers.

Fullerton and Toomey were in the points for the visitors while Warner and Huston made up the battery for the Lowell team.

Fred Doe, formerly manager of the New Bedford team, was present at today's game, which led to the report that he was trying to get the team. Last year he endeavored to secure the Lowell team, but Winn wanted more than Doe was willing to give.

Fall River started the scoring in the first inning by sending one man across the plate. Nichols, the first man up, drew a base on balls, but he was thrown out at second on Messenger's hit to Warner. Messenger stole second. Peacock fled to Ball and a single by Devine scored Messenger.

In the first four innings Fullerton, the Fall River pitcher, struck out two Lowell men and the only men to land on his delivery were Fleming, who made a single, and Venable who scored two hits.

In the fifth of the fifth inning made a beautiful sliding play and in the latter half of the inning Devine punted Lowell from scoring by a good catch at the right field fence.

Lowell tied the score in the sixth inning. After two men had been retired Cox drew a base on balls and Venable making his third hit sent Cox to go. Venable singled to right field and Cox scored. The inning was tied on a fly to Weaver.

In the seventh inning, Fitzpatrick and Cox made a pretty double play, putting Fall River without scoring. Lowell also failed to score in this inning.

Fall River got two men on bases in the eighth inning but could not score. Lowell came out strong but didn't. Howard drew a base on balls and Fitzpatrick went out. McDermott to first, Cox singled. Howard and Cox then worked a double steal and it looked as though Lowell would score but Venable, who had made three hits during the game, coming to this sent a hard drive to McDermott, who after catching the ball, scored and for a double play.

Fall River scored a run in the ninth. Messenger singled and Rowley sent a long ball to center field and Howard, making allowance for his position, scored.

Lowell scored its ninth run with a search single. Times went to a dead end as a sacrifice to Ryan. Ryan went to bat but Warren, who tried to bunt, struck out.

has won but few games since joining the Sox. Before the season opened Manager Lake declared that he could whip together a team of youngsters. So far he has been successful. The team has been hitting at a great rate and fielding and running the bases in a sensational manner. Both McConnell and second base and Wagner at short have been playing a splendid game both at the bat and in the field. Captain Gessler has not been with the team for a week or so owing to illness, but is expected to join his teammates shortly.

Lowell's record is as follows: Wins, 3; Losses, 1; Ties, 1. Total runs, 31; Hits, 27; Errors, 12. Batting average, .277. Fielding percentage, .950. Pitching average, 3.11.

Summary: Struck out—By Warner, 3; Fullerton, 4; Bases on balls—By Warner, 2; Off Fullerton, 1. Sacrifice hits—Fleming, Warner, Huston, Bowdoin, Schuler, Brown, Howard and Cox. Messinger. Double plays—Cox, Fitzpatrick and Cox; McDermott, Fitzpatrick and Cox; McDermott, Fitzpatrick and Cox. Left on bases—Lowell 5, Fall River 4. Umpire—Connolly. Time of game—1:15.

Umpire showed a big improvement after a few days' lay off. His hoodoo has vanished.

Sunday baseball in the New England league started yesterday when Brockton defeated Fall River, 3 to 1, at Rocky Point, B. I. The grounds at Rocky Point are used on Sundays by the Providence team of the Eastern league, when at home, but an arrangement has been made whereby Fall River may have the use of the grounds when the Providence team is away. Fall River will transfer its home games from other cities.

Venable played an At game Saturday.

The appearance of Fred G. Doe, at the game Saturday gave rise to the report that he was to take the team. Doe having offered a goodly sum for the team last year. Doe stated, however, that he was not after the team, though he wanted under contract, Patrick Donovan, scout for the Red Sox, is said to be after the team, while James J. Gray, of this city, will pay any reasonable price for it at any time.

our umpire. We play our games on the North common.

The Palmer and the Edsons played on the South common Saturday. The lineup of the Palmer was: Rene, c; Devlin, p; McCusker, 1b; Mullen, 2b; Gallagher, ss; Bates, 3b; Douglas, 1b; Carroll, cf; Preston, of. Send all challenges to James McCusker, 41 Summer street, or through this paper.

The Red Rover Seconds beat the Bartlett Seconds by a score of 12 to 3 on the oval last week. This team would like to challenge any team in the city, under the age of twelve. Send all challenges to Frank Davis, 35 John street.

The Young Americans entered the field by defeating the Moody Juniors by the score of 9 to 0. The features for the winners were McGowan and O'Connell; for losers, Merritt and Connors.

The idea of putting a ball team in the field representing the Mathew Temperance Institute is a good one and there is no reason why the "old water" boys cannot have a splendid team. Last year it will be recalled, a team calling itself the Mathews played a series of stubbornly fought games with the so-called "Sanctuary" club and those games were for blood as any one who attended them will attest. The Mathews' team so-called, was not representing the local society, and it had not received the sanction of the society. Moreover, the sudden disbarring of the Catholic league, organized by vote of the Catholic societies nullified the right of the Mathew team or any part of it to play. It is an unwritten law in the society and has been for a quarter a century, that any baseball team representing the society must be composed of members of the organization. This rule has always been strictly adhered to in the society, and is one of the many good rules that have remained in force for years, and that with benefit to the society. It might be in order to suggest, parenthetically, that the Catholic league might be reorganized this year, and as a precaution some stringent rules regarding discipline should be adopted. This would help matters immensely and thus make for a successful league. The discipline or lack of discipline in some of last year's games was not creditable and ultimately wound up with bad feeling, discord and finally the inevitable disruption. In a city like Lowell where the fans are eager for baseball it is regrettable that some effort looking to a rejuvenation of the league cannot be made.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. Will Yorg, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of a trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

We never publish a testimonial without the special permission of the writer, and then only when we are sure it is genuine. Such testimony should create confidence in all suffering women.

Saturday's results in the Lowell and Suburban league were as follows:

Wanderers 14, Indians 3.
O. M. I. Cadets 20, Dragons 8.

On Saturday afternoon at the South common the O. M. I. Cadets defeated the Dragons in a very one-sided game by the overwhelming score of 15 to 3.

O'Brien of the Cadets pitched a great game, giving the Dragons only three hits. Curry, formerly of the O. M. I. Cadets, pitched for the Dragons, but in the fifth inning after fourteen runs had been made on him he was forced to retire from the box. He was succeeded by Doyle, who pitched good ball for the rest of the game. Next Saturday the O. M. I. Cadets will meet the Tyngsboro team at North Chelmsford.

Next Saturday afternoon the Y. M. C. A. and Wanderers of the Lowell & Suburban league meet at Washington park in a game for blood. This is the first league game to be played at the park this season. Saturday's score: Y. M. C. A. 10, Wanderers 3. O. M. I. Cadets 20, Dragons 8.

WANTED—EXPERIENCED SEAMSTRESS IN OUR ALTERATION ROOM

THE GILBRIDE COMPANY

NAVAL EXPERTS

Working to Perfect the Wireless System

WASHINGTON, May 17.—Experts of the United States navy are bending every effort toward perfecting wireless equipment, both telephone and telegraph, for use by the vessels of the navy and the naval shore stations. The military authorities also are carefully investigating this subject through the signal corps. Both the navy and the army will be represented at a series of experiments to begin about June 15 at Brant Rock, Mass., where a 1500-watt wireless station has been erected by a contract which is endeavoring to secure the work of building and equipping a six hundred foot tower in Washington with high powered wireless instruments and furnishing two sets of combined telephone and telegraphic apparatus for ships. Brigadier General James Allen, chief signal officer of the army, and several officers of that corps will be present in the interests of the army and the navy. Commander Cleland Davis and Lieutenant George C. Sweet of the bureau of equipment of the navy, will represent the naval service.

This series of experiments to be carried on will include both wireless telegraph and telephone. The specifications set forth by the navy department include a wireless telegraph apparatus with a 3000 mile radius capable of working in all kinds of weather and under all kinds of conditions, with absolute secrecy and impregnable against interference. The telegraph apparatus must be capable of sending 1000 miles and receiving 2000 miles with telephone apparatus for sending and receiving 200 miles.

In the experiments the battleships Connecticut and Michigan, which will be at sea with the Atlantic fleet participating in the summer maneuvers, will take part. They are being equipped with apparatus having a sending range of 2000 and a receiving range of 3000 miles.

The army's greatest interest lies in the wireless telephone. General Allen has at his disposal about \$20,000 to be used in purchasing suitable apparatus for the army's use. Extensive use will be made of the wireless telephone during the Atlantic maneuvers. The vessels which will participate in the maneuvers are being equipped with apparatus capable of a radius of 200 miles.

Only a few of this class of vessels now have wireless telephone equipment.

MAHMOUD PASHA

Is Looked to, to Preserve Order

CONSTANTINOPLE, May 17.—Mahmoud Scheffer Pasha, commander of the Turkish constitutional forces, both land and sea, is the man most frequently in the thoughts of those observing or dealing with the confused politics of the day in Turkey. He is the one quiet figure upon whom rests the preservation of order, and the civil branches of the government look to him to impose their liberal rule upon the empire and to deal promptly with persons or factions dangerous to the state.

The skill and celerity with which Gen. Scheffer brought the Third army corps and part of the Second army corps before Constantinople and occupied the capital, has amazed the foreign military men here. Besides those attached to the headquarters, seven officers came from Constantinople and five British officers from Egypt to observe the development of the campaign. They have not ceased to discuss the details of the constitutionalist commander's arrangements.

Gen. Scheffer has been something of a man of mystery, which impression he has been taking trouble to recent days to remove. He has called in recent days the past week upon every ambassador and minister in Constantinople and upon those Turkish subjects holding high positions, such as the Greek patriarch and the Armenian bishop, representing the vacant patriarchate, and has talked modestly upon political affairs and the situation of the army to the government, possibly with the idea of checking the spreading notion that he is virtually dictator, and that he and parliament are near to a rupture. Speaking on the subject yesterday, Gen. Scheffer said:

"The army is merely an instrument of civil power. The army, and I as an officer in it, derive our authority to establish order from the national assembly. The army is a force of parliament only and works under the will of the cabinet."

The general had a long talk yesterday with the grand vizier, who said: "The grand vizier and I are in perfect accord."

Later in conversation he said: "We have obstacles to overcome in our progress towards free and stable institutions. I have hopes that we will rise above them."

The disorders in Adana province, Gen. Scheffer said, were in process of solution. The court martial there could be trusted to make a thorough investigation, and provide adequate punishment for the guilty. The situation in the Fourth army corps had eased, most of the mutineers and deserters having been arrested.

In conclusion, Gen. Scheffer said: "We desire very much to have the good will, sympathy and moral support of the Americans in the present movement toward better government."

REV. MR. EARLS, S. J.

Able Lecture on Poetry and Music of Erin for Irish League

It was a large and appreciative audience that greeted Rev. Michael Earls S. J., at the Association hall last night when he lectured upon the "Poetry and Music of Ireland," under the auspices of the United Irish League. So extensive is Mr. Earls' knowledge of this subject that the only difficulty he seems to have in the course of his lecture is to decide what to omit in order to touch upon every important phase of the theme in a single lecture.

On the platform with the speaker were Rev. John T. O'Brien of St. Peter's church, Mr. Michael Bourke president, Mr. Hugh J. Molloy of the Normal school, Mr. William E. Maloney and Mr. E. J. Gallagher.

President Bourke opened the meeting in a brief address, in which he stated that the event was conducted for the United Irish League for the advancement of Ireland's cause, now so towards the goal of freedom.

He then introduced as chairman of the evening the eloquent and patriotic clergyman, Rev. John T. O'Brien of St. Peter's church. The chairman, on making his bow to the audience, got an enthusiastic reception.

Rev. John T. O'Brien got a most cordial reception and spoke as follows:

KILLED BY FALL
MAN DROPPED FROM FOURTH STORY WINDOW

BOSTON, May 17.—Joseph Pomonek, a Pole, met death mysteriously early yesterday morning by falling from a window in the fourth story of a brick tenement building at 133 Endicott street, North End.

Pomonek's body was found at least four feet outside the sidewalk curbing, giving the impression that he must have shot out of the window with considerable impetus.

The case looked so mysterious to the police that the five companions of Pomonek, who had been occupying a room with him, were taken to station and questioned, after which they were allowed to go back to the boarding house. The police are continuing their investigation.

Charles Martin, occupying the tenement on the second floor, heard the body strike the street, and by shouting drew the attention of the other occupants and the police about 2:35 a. m.

Joseph Wurwonowich, who conducts the boarding house, told the police that Pomonek was a stranger to his companions. Wurwonowich said that Pomonek was 35 years old and came from Berlin, N. H., a few days ago.

REV. DR. CHAMBRE

THE REV. DR. JOHN CHAMBRE

Observes 25th Anniversary of Pastorate at St. Anne's

At St. Anne's Episcopal church on Sunday morning the pastor, Rev. A. St. John Chambre, D. D., who is celebrating this week his 25th anniversary as pastor, reviewed the history of the church and the work of his only predecessor, Rev. Dr. Theodore Edison. For all those years he went in and out among his people, and the citizens of Lowell, each year adding to his influence, and making him easily the foremost and most revered figure in this city.

THREE TURKISH CONSPIRATORS HANGED BEFORE MULTITUDE IN CONSTANTINOPLE

CONSTANTINOPLE, May 17.—Nearly fifty public executions of men concerned in Abdul Hamid's conspiracy have taken place in Constantinople since the old sultan was overthrown. This photograph shows a throng of

people gazing at the bodies of three conspirators hanged from improvised scaffolds at the entrance to the Galata bridge. The authorities found the public executions necessary in order to convince the people that the conspirators were being summarily dealt with. The bodies in most cases were allowed to hang from the scaffolds for many hours before being cut down. The spot where these executions took place is the most prominent in the city, and many thousands of people pass it every hour. The victims were tried by court martial and upon being found guilty were hanged at daybreak. It is generally believed in Europe that Abdul Hamid will suffer some tragic fate before many days. In Saloniki, where he was sent after the Young Turks took possession of the capital, the people fear that he will be executed in some way, be it by hanging, or by the sword, and all who are known to him are being closely watched by government agents.

the same families or individuals. He has become a part of the life of others, becoming known to him. What their sorrows and their joys. The secret of his power was in that he was a true parish priest and pastor. He never lost sight of his duties as such. With strong conviction, without reserve, and holding back no essential truth of revelation, he preached the gospel of our Lord and Savior, Jesus Christ, administered the sacraments, and reverently and assiduously conducted the service of the sanctuary, in accordance with his ordination vows, and in loyalty to the laws and ways of the church which had made him a priest of God.

Dr. Chambre, in closing, spoke of his own labors here and his relations with the people. "The relation between pastor and people," he said, "is a very sacred and intimate—how sacred can be fully appreciated only by one who has been many years associated with

So it comes to pass, that in a very real sense he bears his people on his heart, their wants, their woes, their virtues, their sins, as the high priest of Israel bore upon his breastplate the names of the twelve tribes, when he entered the holy of holies, to make intercession for them before the Ark of the Covenant of God.

"Care and anxieties and disappointments, sometimes heavy heartaches, have been experienced in these 25 years; yet they have been years of joy, and of deep gratitude to God, and to you, in view of the blessings which have crowned them. The parish, as well, has been uniformly and continuously kind and considerate, and of this kindness and consideration the rector has been keenly appreciative and with all his heart responds with sincere affection and thankfulness. The relation between the rector and the official board of the parish, the wardens and vestry, has in no single instance been marred or disturbed. There have always been the most pleasant intercourse and harmony; and he believes that today he has their confidence and love. How grateful he has been for all this he cannot sufficiently emphasize. Doubtless there has often been opportunity for difference of opinion, and of views, but never has there been other than Christian kindness and consideration in the furtherance of the things pertaining to the kingdom of God.

"God has granted this gracious relationship of rector and people for 25 years. What other years shall bring to him or to them, is wisely hidden in God's loving care. To Him is left the future in the calm truth, that He will surely do all things well—that He will follow with his loving kindness and tender mercy—that as we are true and faithful still He will crown this parish with manifold spiritual blessings, and with the prosperity that shall be wisest and best. To His unfailing love and care, you, my beloved people, are commended today, and forever."

GIRL COLLAPSED

WHEN SHE WAS PLACED UNDER ARREST

PLYMOUTH, May 17.—Miss Ethel Hanley, a maid formerly in the employ of Augustus D. Batchelder, is in a serious condition. It is said, at the Plymouth police station.

She was arrested early yesterday morning in Boston by Inspector Wise of the Boston police department while

on her way to the bedside of her mother, who is said to be dying in Montreal. She is charged with the larceny of a suit case, pocketbook and jewelry, valued in all at over \$30, the property of Mr. Batchelder. Miss Hanley claims that she took nothing but her own property.

When brought to Plymouth by Constable A. J. Horgan of the Plymouth police she was in a hysterical condition, and despite the efforts of the police, could not be quieted. She claims that the arrest is an injustice and that her mother needs her aid. She was arraigned in the Plymouth district court this morning.

TRAIN HELD UP

Bandits Robbed Registered Mail Said to Contain \$20,000

SPOKANE, Wash., May 17.—After the holdup of a Great Northern passenger train by six bandits between Colport and Mead, Saturday night, 12 persons were injured when the locomotive and the mail car, cut off from the rest of the train, ran back wild after the bandits had rifled the mails of an unknown amount, and collided with the rest of the train which had been left standing where the bandits got possession.

Having taken the detached mail car down the track a considerable distance the robbers looted the registered mail and reversing the engine, sent the locomotive and the car crashing back into the passenger coaches.

The conductor saw the wild cars backing down the track at 25 miles an hour and he and another trainman placed a tie on the track to stop their flight, but the cars, although partly stopped by this means, plunged into the coaches, throwing passengers from their seats and cutting them with glass from broken windows. A trainman, moved to the task, sprang aboard the locomotive at the collision and shut off the steam, stopping the havoc.

When the train reached Colport Saturday night, some switching had to be done. While the engine crew was busy at this work two men sprang into the cab and thrusting revolvers against the bodies of Engineer William Miller and Fireman John Hall, ordered them to do as commanded. The engineer and fireman complied and the mail cars were cut off from the rest of the train by four other robbers. The locomotive and the mail car were then run up the track a few miles. Next the engineer and his fireman were forced to leave the cab. Two of the robbers went to the door of the mail car and ordered it opened. Their command was obeyed by the mail clerk, who was hurried away from the cars with the engine, by a dozen revolver shots. Maiming the locomotive them-

self tall and evidently was an experienced engineer. The two robbers entered the cab this man said to the engineer:

"You have heard of us before," indicating that they had been involved in similar holdups in the vicinity of Spokane within the last few months.

SULTAN'S SLAVES

MOST OF THEM HAVE BEEN SET FREE

CONSTANTINOPLE, May 17.—Eighty women from Abdul Hamid's harem, richly dressed and veiled, were driven in carriages yesterday under the escort of four Eunuuchs and a troop of cavalry from the Yildiz to the ancient Seraglio palace, which has been unoccupied since about 1824. Curious bystanders were driven away from the exit of the Yildiz palace by a guard of soldiers. Following the carriages was a train of wagons with baggage. The Yildiz is being made ready for the admission of the public. Most of the former sultan's slaves have been freed.

The arrest of Prince Burhan Eddin, the fourth son of the deposed sultan, is confirmed. He will be kept in one of the palaces there. Nothing is known of the precise charge against him, but he was under suspicion of being implicated in the mutiny of April 13.

BRUTAL MURDER

Laid to Door of "Black Hand"

BOSTON, May 17.—What is believed to have been a Black Hand crime resulted in the murder last night of William Denapo, aged 25 years, in the North End, by shooting, while Giovanni DeCristoforo, aged 30 years, is at the hospital suffering from severe knife wounds in the head and body.

Carmina Cristoforo, aged 35 years, is locked up and will be charged with the crime of murder, according to the police. A dozen other Italians are detained pending an investigation.

TEMPLE BURNED

LOSS OF FIRE AT TOKIO ESTIMATED AT \$200,000

TOKIO, May 17.—Zojoji, the famous Buddhist Temple, situated in Shiba Park, Tokio, was completely destroyed by fire a few days ago, the damage amounting to about \$200,000.

The Sojoji temple, next to the great temples of Nikko, was probably the most famous and popular show temple in Japan. It has been visited by more tourists and foreigners than any temple in this country, not excepting those of Nikko, Nagoya and Kyoto. Its wonderful red gates will be remembered by thousands of tourists. Fortunately these were saved from the flames, but inside the temple compound there only remains a lonely daisu of bronze surrounded by wreckage and embowered amid the blackened branches of an overhanging cryptomeria. A few other gigantic pieces of bronze stand out lonely amid the mass of ashes, all that is left of some of the wonderful art treasures that were to be found in the far east. The fire was set by a beggar who was living in a hole underneath the floor of the temple. The man was cold and started a little blaze with a newspaper and a few sticks for warmth. The flames spread and the temple was consumed.

GOLD PRODUCT

THE WORLD'S STOCK HAS INCREASED ONE HALF

WASHINGTON, May 17.—A preliminary summarization of a series of tables bearing on the production of gold prepared by the bureau of statistics was made public yesterday. According to the figures presented, the world's stock of gold has increased about one-half in the last decade and doubled in the last quarter of a century. The stock of gold money has meantime grown in even greater proportions, being practically 15 per cent more than a decade ago.

The amount of gold now in existence is estimated by experts, speaking in round terms, at \$11,000,000,000 value, while the value of the gold coin in all countries of the world from which statistics are available now aggregates \$7,000,000,000.

According to the tables a very rapid increase in gold production in recent years is shown. The summary adds that "considering its distribution by country, the United States has a greater supply of gold money than any other country, the figures being, according to this table, \$1,613,000,000."

BROKER FOXWELL

MAY BE TAKEN BACK TO BOSTON

WASHINGTON, May 17.—Charles L. Foxwell, a broker in mining stocks and said to be a relative of Augustus Heinz of New York, who was arrested here Saturday for alleged irregular dealings with a number of Eastern mining companies, which were relieved of vast sums of money, ranging from \$50,000 and upward, will probably be taken back to Boston for hearing early this week.

Whether Foxwell will resist extradition cannot be learned. He has retained James H. Hayden, a Washington attorney, and the latter visited Foxwell's cell for a conference last night. Subsequently neither Foxwell nor his attorney would talk.

The Boston authorities yesterday telegraphed the police department that a warrant for the return of Foxwell to the jurisdiction of the Massachusetts courts would be obtained today, and a certified copy of the document would be forwarded to this city in the hands of a detective who will be sent for Foxwell. The Boston police indicated in their message that Foxwell while living in that city bore the alias "Charles L. Copeland," and that the broker faced six charges in that city. Foxwell, who is 35 years old, has resided here a year and lived in lavish style. He presented a picture of despair last night as he sat dejectedly in his dark cell. Mrs. Foxwell, a beautiful young woman, probably 35 years of age, visited her husband yesterday and took him some delicacies.

THE GOLF SEASON

Opened at Vesper-Country Club

The formal opening of the golf season at the Vesper-Country club was held Saturday when teams captained by H. E. Bramhall and S. T. Whittier met on the links. At the conclusion of play the cards were collected and it was found that Bramhall's team was the victor and during the early evening Mr. Whittier and the members of his team entertained the winning aggregation.

Meanwhile, on the lawn in front of the club house a large screen had been set up in preparation for a display of stereopticon and moving pictures of famous golfers and noted courses. Dinner over, the members and the ladies gathered on the veranda to hear Alexander H. Findlay's talk on golf.

Mr. Findlay spoke on the first principles of the game, illustrating with his clubs the drive, the pitched mashie shot and also described some of the famous courses of the world and took occasion to say that he considered the famous courses were to be found in Ireland where a warm welcome awaited the American golfer.

The scores of the teams were as follows:

W. K. Fairbanks 2, J. A. Thompson 0.
T. Nesmith 0, E. H. Barker 0.
W. L. Muzzey 0, P. Gilbride 2.

Quite a number of Lowell men will attend the meeting of the Armory club next Tuesday evening when an all star program will be given with final of 12 rounds between Jimmie Clabby of Milwaukee, the western boxing wonder, and Tommy Quill, the pride of Brockton. Clabby recently fought a 20 round draw at New Orleans with Jimmie Gardner which gave his stock a big boost and he is said to be here for a second match with the Lowell champion. Quill is a fast man and all Brockton will be on hand to see him try conclusions with Clabby. Fred Tighe of the Lowell Inn and Edward T. Cushing of the Richardson hotel are members of the membership committee of the Armory A. A. and will receive applications for membership.

None would ever know by Jimmie Gardner's appearance that he had fought a 12-round battle only a few days ago as he is without any marks of the contest.

PANIC STRICKEN

Armenians Were Fired Upon by Moslems

ADANA, Asiatic Turkey, May 17.—Two hundred Armenians who started away from here Saturday, were fired upon soon after their departure from the city by a band of Moslems. The Armenians returned panic stricken. The military commissioners, however, gave assurances that the Armenians would be safe-guarded, and sent out patrols through the country. The police are taking active measures to restore to the Armenians their unburied houses. Captain William A. Marshall, commanding the United States armored cruiser North Carolina, now at Messina, and Edward J. Nathan, the American consul at Patras, Greece, are now at Adana engaged in an investigation of conditions.

The heat is intense and there is still much suffering.

ACADEMY OF MUSIC

Shows may come and shows may go, but the Academy show is permanent for it is built on a paying policy, that of giving the public the best for the money expended. There are no weak bills at the Academy from week to week. All are uniformly strong and similar in length, for each program consists of four reels of moving pictures, the latest creations of the film manufacturers, and in addition to the pictures there are two illustrated songs given by talented soloists and a series of stationary views known as Travellettes which portray scenes along the world's great highway. Shows run daily from 2 to 5 and 7 to 10.30 and on Saturday a continuous show is given from 2 to 10.30. The price of admission is always five cents and that includes a good seat while there are reserved seats at five cents extra.

STAR THEATRE

The excellent ventilating facilities in the Star theatre and the extreme care exercised in cleaning the interior keeps it cool in the warmest of weather and the performance can be witnessed from good seats, which are included in the admission of five cents.

Today the biggest and best show in Lowell was produced. It consisted of two big vaudeville acts, a talking picture, motion pictures, illustrated songs and renditions by the singing orchestra.

THEATRE VOYONS

Today the Theatre Voyons will have two unusual features, one is to be the latest film of art "The Hunter's Grief," and the other the old and familiar ballad "Silver Threads Among the Gold." The feature picture "The Hunter's Grief," is an exceptionally good one and the makers have taken a great deal of trouble in putting it in in just the right way. There will be plenty of fresh, clean and laughable comedy and a good selection of dramatic subjects besides the feature picture.

LABOR DAY

TRADES & LABOR COUNCIL ARRANGING FOR CELEBRATION.

A well attended and enthusiastic meeting of the Trades & Labor council was held yesterday afternoon and delegates representing 21 different crafts were present. Reports from various trades showed that there is great activity being displayed all along the line. Much interest is shown in the

labor day celebration, and all the committees report progress. H. W. Churchill, business agent for district 12, I. A. of M., of Boston, was present and addressed the council in the interest of the metal trades and machinists of this city, and will speak before the different locals during the week.

AUTO CARNIVAL

Hearing Held at State House Today

President John O. Heinze, Secretary John A. McKenna and J. Gilbert Hill, of the legal committee of the Lowell Automobile club, went to Boston today and appeared before the house committee on rules of the state legislature, to speak in favor of the bill relative to the closing of certain roads in Lowell, Tyngsboro and Dracut during the proposed automobile carnival to be held here.

The board of selectmen of Dracut has given its sanction to the promoters of the auto carnival to be held in Lowell on Labor day to use certain roads in the west section of the town in the event of the Lowell course being lengthened to 15 miles.

Real Facts About the Hair

The air is full of floating dust, dirt and disease germs, which settle upon everything. There is a natural oil on your head that holds the dust fast, and in a short time you have dandruff and scalp troubles. The pores in your scalp are stopped up, the hair roots get no nourishment, and then your hair begins to fall out. It is all such a simple matter that a child can see that cleanliness is the one and only thing needed. You don't need tonics, renewers, invigorators or hair growers. You need Birt's Head Wash, which will put your hair and scalp in a healthy, natural condition, and you ought to use it at least once a week. It puts the scalp in such healthy shape that faded, lifeless hair resumes its natural color, and the hair of all who use it takes on a soft, silky gloss and sheen that every man and woman so much admires. There is no alcohol in Birt's Head Wash, as alcohol is said to make hair turn gray prematurely. Birt's Head Wash is made of Refined Soap, Cochin Cocoon Oil, White of Eggs, Glycerin and Salicylic Acid. There are no better things than these known for cleansing the hair and scalp, and any doctor or druggist will tell you so if you ask him. Price 50 cents.

STATE TAXATION

Report Deals With Conditions in New England

WASHINGTON, May 17.—A unique and interesting report dealing with state taxation of mercantile, marine and transportation corporations was made today by Herbert Knox Smith, commissioner of corporations. That part of the report transmitted to President Taft concerns particularly the six New England states. It is expected that additional parts dealing with other groups of states will be published later.

A careful investigation into the tax laws of each state was made by Commissioner Smith and the results of the inquiry are presented in concise form. The report presents in a popular way a digest of the tax laws and the methods of their administration.

While in a sense it is a legal publication it was prepared rather for the general purpose than for lawyers. It contains much information particularly interesting to legislators and all other students of taxation. Commissioner Smith points out that while the taxation of individuals throughout New England is on substantially the same basis there is a wide diversity among the several states in both the theory and practice of the taxation of corporations. He notes particularly the Massachusetts plan of taxation of corporate excess on the market value of stockless property otherwise taxed. It is pointed out too that Massachusetts alone succeeds appreciably in efforts to tax specifically the manufacturing and mercantile corporation.

Railroads, it is noted, are among the largest tax payers. Public service corporations are most often brought under new systems of taxation. A review of the tax systems of taxation indicates to Commissioner Smith that the entire subject matter is still in an unfinished condition and will need yet further careful thought and consideration.

TWO MEN KILLED STRIKE LEADERS

Carriage Was Hit by a Locomotive Want to Precipitate a General Strike

CLINTON, May 17.—John Kelley and John Gibbons were instantly killed last night when a locomotive drawing the train from Fitchburg to South Framingham over the New York, New Haven & Hartford railroad struck their light carriage.

The vehicle hung suspended from the cowcatcher, but the men's bodies were thrown out and to one side.

The horse behind which they were driving was cut nearly in two.

Kelley was married and leaves a wife and three children. He was a weaver by trade and about 35 years old. He and Gibbons, who was unmarried and about 20 years old, were fellow workers in the same mill.

The men were on their way home from Sterling in a hired rig.

Bingham's Crossing, where the accident occurred, has long been known as a dangerous section of thoroughfare. For some distance before and after reaching that place the road runs parallel with the railroad tracks and turns there at right angles.

The view from the road is obscured by a high hedge and residence.

Kennedy Caught

AFTER IRATE FATHER FIRED TWO SHOTS AT HIM

DAYTON, O., May 17.—Edward Kennedy, aged 26, was captured by a mob in North Dayton yesterday after two shots had been fired at him by Elmer Williamson, father of Annie Williamson, aged 14 years.

Kennedy is accused by the police of having enticed the little girl into a vacant house near his home. The father, hearing of the affair, pursued Kennedy, firing two shots at him. The shots attracted the attention of a crowd in a nearby ball park and about five hundred men and boys joined Williamson in pursuit of the man. Kennedy was captured half a mile from where the chase began. Williamson asked that Kennedy be turned over to the police and it was done.

MAY NOT SHOW EXHIBIT

SEATTLE, Wash., May 17.—Unless the officers of the Alaska-Yukon-Pan exhibition provide space where the exhibition may be shown to advantage, the display sent by the bureau of American republics will be shipped back to Washington. Arrangements were made to place the exhibit in the Ames building. Later this space was given to other persons and room was reserved in the gallery of the Oriental building. W. J. Koeb, special agent for the bureau, declares that the space and location are not in keeping with the dignity of the exhibit. The exhibit is already on the grounds but has not been unpacked. If a suitable location is not at hand the exhibit will be shipped back to Washington.

LOTS OF GAME

ROOSEVELT PARTY HAS AT LEAST 50 SPECIMENS

NAIROBI, British East Africa, May 17.—Edmund Heller, one of the zoologists of the Roosevelt expedition came into Nairobi today with some fifty specimens of animal and bird life that are to be cured and preserved here. They include one rhinoceros, six lions, two giraffes, twenty smaller kinds of game and a variety of birds.

NO CLUE YET

TO THE MURDER OF LAURA REGISTER.

PROVIDENCE, R. I., May 17.—That the mystery concerning the identity of the stranger of Laura E. Register whose body was found on Roosevelt avenue, Cranston, on Tuesday morning of last week remains no nearer solution than when the investigation began was admitted by the police today. They said today that they had practically nothing to work upon, the examination of all supposed clues having produced no results.

PROF. WILDSTEIN

BECOMES HUSBAND OF MRS. THEODORE SELIGMAN

LONDON, May 17.—Charles Wildstein, professor of the arts at Cambridge university and Mrs. Theodore Seligman of New York, daughter of the late David Seligman, were married at the registry office here today. The marriage was thus quietly celebrated on account of the very recent death of Mrs. Seligman's father, Lewis Seligman, secretary of the American embassy at Constantinople, whose sister Anne.

CAPT. MARSHALL

Sees That American Interests Are Protected

MERSINA, Asiatic Turkey, Sunday, May 16.—Captain Marshall commanding the United States cruiser North Carolina now in this port had a conference with the governor of Adana province yesterday. As a result full protection has been promised American interests in Adana and guards are patrolling the American property there and elsewhere.

Many thousands of unfortunates in the refugee camps are huddled together and there is lack of food, shelter and medical aid. The authorities are trying to improve the situation and send the refugees back to their farms.

Many Armenians are quartered at the American missions and most of them decline to leave because of their lack of confidence in the protection offered. The greatest danger is from epidemic in the overcrowded camps and missions. Measles and typhoid already exist. The refugees must be dispersed as soon as possible. Money contributions are greatly needed. Captain Marshall is sending a medical relief party up to Adana.

The North Carolina will remain here for the present.

Granted an Audience by Japanese Emperor

TOKIO, May 17.—Rear Adm. Harber, commanding the Asiatic squadron of the Pacific fleet, with his staff and the captains of the ships composing the squadron, were granted an audience with the emperor and the empress today. The officers were presented by American Ambassador O'Brien and Admiral Harber was engaged in conversation with the emperor for several minutes.

In an interview Admiral Harber said: "I came to Japan entirely on my own initiative and had no thought of any special reception to the squadron, but on my arrival found that preparations had already been made to give us a hearty and enthusiastic welcome and reception, to all of which my own feelings naturally and cordially responded."

"It seemed exceedingly opportune that this visit should occur just when Admiral Ichi's training squadron is being welcomed at San Francisco, a place which, despite the clamor raised by one element, has proved by the simple hospitality displayed by the people of that city at least, the people of both countries have not only a desire of the continuance of American cordial relations, but also a sincere respect and regard for each other."

"The official entertainments and social receptions tendered to my officers, men and myself by the Japanese have impressed me deeply. The kindly words and sentiments expressed have been so spontaneous that no one present could doubt the depth and sincerity of the cordial relations that have always existed between the two countries. This feeling is now perhaps deeper and stronger than it was before."

Admiral Harber has made an unusually favorable impression on all with whom he has come in contact during the visit of the squadron, and he will leave Japan as one of the most popular American officers ever entertained here.

WANTED—EXPERIENCED SEAMSTRESS IN OUR ALTERATION ROOM

Continuation of the Great Anniversary Sale

The greatest Values of the year in this sale. It's our public appreciation of your trade the past twelve months, which has been so helpful in the steady growth of this business—we assure you that in extent and size of value-giving, it tops all sales ever held in Lowell. It actually and truthfully provides you with a whole dollar's worth of merchandise for fifty cents—often more.

Is it any wonder this store was packed to overflowing the past three days with women, who bought most generously? The great inroads made during the past few days on the different stocks have been filled in and today, Monday, we open with complete lines. New lots of goods that arrived too late to be put on sale last week go on sale this morning. Be on hand early and read every item and price quoted below.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1908 was

15,956

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Plottie, pressman, of The Sun, before me, January 1, 1909. J. JOSEPH HENNESSY, Notary Public

This is by far the largest average circulation of any newspaper in Lowell.

OUR FIRE RECORD.

Our record of bad fires, if the North Cheshamford mills be credited to Lowell as it is by insurance men, is greater than it should be. Our fire department is accounted efficient and no doubt it does good work, but in spite of this we are having too many serious fires. What the remedy is we cannot say except greater vigilance and more fireproof construction.

CUBA STARTS A LOTTERY.

The Cubans have started a lottery as a means of making money. They probably hope to revive the interest and secure the revenues that were formerly lavished upon the Louisiana lottery. They expect that the scheme will bring them an income of \$2,000,000. Cuba must have some advantage out of her national freedom. This lottery is injurious to any nation as it is a temptation to habitual gambling that may prove disastrous.

AN INTERNATIONAL PEACE ARMY.

In view of the atrocities committed at Adana, in Armenia, by the Turks, the need of an international army to be used in the interest of humanity is suggested as a permanent necessity.

We have The Hague tribunal in the interests of peace, but if fanatics so determine they may get out and slaughter defenceless people by the thousands while that tribunal is deliberating upon treaties. There are nations that will observe no treaty and respect no law once the fixed order of things has been overturned.

If the great powers are sincere in their peace pretensions they should combine to maintain such an army and have it stationed near the storm centre so as to be at hand when the trouble begins. We have heard much about "peace compelling armaments," but this would be the real thing for the compulsion of peace. Nothing that the great powers have ever done conjointly would accomplish so much for humanity.

THE OPPOSITION TO THE MERGER.

There has been a great deal of talk against the railroad merger in political circles during the past two years. And it is doubtless a fact that many a politician has secured election on this issue alone by declaiming upon the dangers to the interests of the people should the merger become a fact.

It cannot be denied that the railroad mergers have been affected from time to time during the past twenty-five years as the progress of business demanded, and there was little opposition in some of the worst cases. There is no reason why the Massachusetts merger cannot be allowed with proper legal restrictions. We understand that it will mean a great deal for Boston in keeping that city a centre of commerce and traffic and making it a terminus of one other great railroad line. The opposition to the merger is operating against the interests of Boston and of New England. The legislature can lay down a policy that will protect the people's interests sufficiently with any form of merger that may be adopted. With this done the merger will have lost all its terrors and the politicians will have lost an issue upon which they can bluff the public.

TO ERECT A MONUMENT TO WIRZ.

The Georgia division of the Daughters of the Confederacy have come out in favor of a monument to Henry Wirz, the keeper of Andersonville prison. We cannot conceive a more ill advised step, inasmuch as the name of Wirz is associated with the horrors of Andersonville, which to this day make northerners who knew what it was shudder. Had Wirz proved to be a man of humane sympathy, or of magnanimity towards the prisoners of a conquering foe, then he might be worthy of having his memory honored. It is passing strange that a body of women should pick out such a character to be honored by posterity.

What did Wirz do to prove that he was anything better than a common place jailer who whether by the orders of his superiors or by the exercise of his own judgment presided over what has been well termed "a gigantic mass of human misery," with heart steeled against suffering when it was among the men who fought for the north. Was heroism and humane feeling so rare in the Confederate army that nonentities of this type, the common law hangman and executioner, so to speak, must be honored by present and future generations? We cannot believe it.

THE PSYCHOTHERAPIST COMING.

Get out your dictionaries, your Greek and Latin lexicons to find the meaning of "psychotherapy," the new application of religion to the subject of healing. This is a combination of two words, psycho and therapy, the latter meaning the same as therapy.

The subject was discussed at considerable length by the Episcopal convention in Boston the other day. Some prominent speakers at the meeting were frank enough to acknowledge that they never heard of the word before, while others resented it as a new form of recognition, to Christian Science and other alleged forms of healing. Religious and medical men alike recognize that there are some diseases, mostly nervous disorders, that may be helped by acting on the patient's imagination, so as to cause hilarity or cheerfulness and drive off melancholy forebodings that aggravate present ailments and bring on new. Every doctor of experience has met such patients and knows just how to treat them. Instead of medicine he requires a supply of blarney. There is still need of a live, positive religious faith even as affecting the physical condition by reflex action, but this cannot be imparted by any scheme, the underlying principle of which is that by an effort of the imagination you can effect physical cures. The Episcopal convention decided wisely that psychotherapy is something upon which the denomination may well afford to go slow.

SEEN AND HEARD

It is really astonishing how many new things you absolutely must have, when you could get along with the old ones quite as well.

Speaking of the ladder of success, some women would seem to get it if they had to climb a ladder to get it.

While the author is making his reputation, he must expect to have the postman who brings him his printed manuscripts look at him with an air of mild disparagement.

Jupiter has four moons, so that if you lived on Jupiter you would get some idea of how things look to a man, sometimes when he is coming home from the club very late at night.

Lovely woman always was more or less of a paradox, but after all, how interesting paradoxes are!

Someday in Chicago advertise: "Teatime Piano Playing Positively Taught in Twenty Lessons." It is a great thing to be able to live away out in the country, a mile from your nearest neighbor.

Even when a woman gets to the point where everybody thinks of her as fat, she always thinks herself that "plump" would be a much more appropriate word.

Seven hundred billion matches are manufactured annually in the United States, but that doesn't help a man any when he is miles from anybody and finds that he hasn't a match when he wants to light his pipe.

Some people are always finding fault with everything they see, but it is just as easy to pay compliments. It is to find fault, provided you aren't one of those people who are scrupulous about being always truthful.

HOW'S YOUR LIVER?

The principal work of the liver is the secretion of bile—a golden brown, mucilage-like substance, composed of certain liver elements and water, which is called bile. It is the natural antiseptic and cathartic of the bowels. A torpid liver means defect in secretion, which after means constipation with its attending evils.

The bile plays a most important part in promoting healthy digestion. Its absence results in congestion of the bowels, with indigestion, and to correct this and secure healthy bile secretion, Smith's Pinapple and Butternut Pills have a very selective action—in fact they cure biliousness, relieve the bilious headache, rid the fecal contents out of the body which, if permitted to remain, would poison the whole system and finally undermine the general health.

Never trust yourself to become bilious. A sick headache, a torpid bowels, indigestion, or a flat distention with dizziness and a yellow-tinged tongue call for the prompt use of these pills.

They are by far the best remedy to empty the bowels and relieve congested conditions. They act as a tonic to the liver, preventing as well as curing constipation. One or two of these pills taken every night mildly stimulates the liver and corrects biliousness without the driving purgative effects of harsh drugs. Their gentle laxative action especially commends them to ladies who find eating and are subject to periodical headaches. To secure a healthy secretion of bile, thus establishing perfect bowel regularity, these little pills possess merits peculiarly their own, not found in other remedies. Physicists use and recommend them for their habit. You should always keep them on hand. These little vegetable pills will ward off most ills and cure.

you not to do a thing, don't do it, unless you are dead sure that you can come out all right.

It's the worst kind of folly to worry and fret.

When everything seems to go wrong, if you have the skill, or are deeply in debt.

Just catch a bit of a song!

The doctor may think it won't help you a bit.

And your creditors may not be gay, but look on your life, though it be a misfit.

In a philosophical way.

If your rent's overdue, and you have a lot of cash.

And your landlord is far from polite, What good does it do to sit down and lament?

Just smile, and perhaps all will come right.

If the butcher says "No," when you ask for a chop.

And the grocer's credit says "Nay," Never mind! Give a jump and a skip, and a hop.

In a philosophical way!

In short, the whole secret of living is this:

Just meet the cold world with a laugh.

You may finally starve, but your detestable bliss

Will reduce your discomfort by half!

This is nonsense, of course, as every one knows.

But so is the usual way.

Of the poet who tells us to take all our woes

In a philosophical way.

PEOPLE OF NOTE

Ex-Gov. W. M. Dawson of West Virginia is understood to have declined a foreign appointment from President Taft in order to remain at home and continue to take a leading part in the direction of republican party affairs in his state.

The new professorship in the department of teaching, University of Vermont, has been filled by the appointment of Dr. J. F. Messenger, now professor of pedagogy in the Virginia State Normal school at Farmville. Prof. Messenger is a graduate of the University of Kansas, class of 1895, is an A. M. of Harvard, and a Ph. D. of Columbia, where he held a fellowship. He is the author of several papers on psychology and education.

Gov. John A. Johnson of Minnesota is expected to enter the senatorial race to contest for the seat now occupied by Senator Clapp. The term of Mr. Clapp expires March 3, 1911, and his successor will be elected by the legislature sitting in 1910.

The king has conferred the decoration of the Royal Red Cross upon Miss Mary Emily Gray, nursing sister, Queen Alexandra's military nursing service for India, in recognition of the special devotion and competency displayed by her in the care of the sick and wounded during the operations of the late Mohmand field force.

The Englishwoman's Review records the struggle of Mrs. Cighera to attain to the position of "sworn translator," or, as the English put it, interpreter, in France. In this country the position is chiefly valuable at Ellis Island, where there must be those capable of understanding and talking with the immigrants from every quarter of the globe. Still that is not the position sought for long and just attained by this clever woman, for the "sworn translator" is more than that; the person must be qualified by being perfectly conversant with many languages (instead of two or three which is the usual limit in court interpreters in this country), must have a wide general culture, and sufficient knowledge of purely civil and international law in order to assist witnesses and principals in litigation before the tribunals of France. With Mrs. Cighera it was a comparatively easy matter to qualify. In the first place she came of a family of linguists. Her father, English, and her mother, German, each knew the languages; her husband, who was a sworn translator, was an Italian, and she is a naturalized French woman. Ever since her husband died ten years ago she has vainly applied for the place. There was no reason why a woman should not hold the position, only no woman had ever done so. However, recently an important case showed the ignorance of most of the corps of translators and Mr. Forichon, president of the court of appeals in Paris, insisted on an examination of all candidates, even those

Lord Pirie has purchased Witley Court, near Haslemere, one of the finest estates in England. It formerly belonged to Whitaker Wright, who committed suicide in 1904 after he had been convicted of embezzlement. The price paid by Lord Pirie for the estate was \$1,000,000. It is said that Wright spent \$3,500,000 on the property.

Gov. Hoke Smith of Georgia will resume the practice of law when he retires from office as chief executive of the state next month.

A particularly sad drowning accident took place at Long pond Saturday evening, when Arthur Rivard and Harry Frost, brother-in-law, who resided together at 184 Tilden street, were drowned while fishing.

Jean B. Colombe, who accompanied them and who lived in the tenement above them at 184 Tilden street, had a narrow escape from drowning and was brought home in an exhausted condition.

Frost's body was recovered early Sunday morning by Undertaker Savage, while Rivard's body was recovered in the afternoon by Undertaker Albert. The bodies were brought home and were laid side by side in the parlor of Frost's home, where Frost's young wife was almost prostrated at the loss of her husband and brother.

The men went out to Long Pond about 5 o'clock in the evening to fish all night, and Mrs. Frost and Mrs. Colombe were to join them yesterday at Lakeview for a day's outing.

The accident occurred about 10 o'clock. They were fishing about 100 feet from the shore and decided to change their location. One of them drew up the weight that served as anchor, but instead of dropping it in the bottom of the boat dropped it on the edge, causing the boat to capsize and precipitating them in the pond in utter darkness.

Colombe, who could swim, struck out for the shore and arriving as he supposed within his depth attempted to wade ashore only to sink in mud to his armpits. His screams attracted another party of fishermen, who located him with the aid of lanterns and dragged him ashore.

Colombe states that he saw nothing of Frost after the boat capsized, and Colombe caught him and attempted to pull him along, but Rivard freed himself, crying out, "Let go, Jean!" Frost was employed in the Tremont and Suffolk, and Rivard at Foster's shoe shop in White street. Frost left his father, George A. Frost, of East Somerville, and two sisters, Mrs. Florence E. Bowes of East Somerville and Mrs. Daisy E. Rich of Whitman, besides his wife. Rivard left a brother, Joseph Rivard of Stoneham, and three

sisters, Mrs. Adelaide Tessier and Mrs. Della Gillett of New Hampshire, and Mrs. Frost.

NAVAL EXPERTS

Working to Perfect the Wireless System

WASHINGTON, May 17.—Experts of the United States navy are bending every effort toward perfecting wireless equipment, both telephone and telegraph, for use by the vessels of the navy and the naval shore stations. The military authorities also are carefully investigating this subject through the signal corps. Both the navy and the army will be represented at a series of experiments to begin about June 15 at Fort Belknap, Mass., where a high powered wireless station has been erected by a concern which is endeavoring to secure the work of building and equipping a six hundred foot tower in Washington with high powered wireless instruments and furnishing two sets of combined telephone and telegraphic apparatus for ships. Brigadier General James Allen, chief of the signal corps, and several officers of the army, and several officers of the navy, will be present in the interests of the army, and Lieut. Commander George C. Sweet of the navy, will represent the navy, will represent the navy.

This series of experiments will be carried on will include both wireless telegraph and telephone. The specifications set forth by the navy department include a wireless telegraph tower apparatus with a 3000 mile radius of working in all kinds of conditions and under all kinds of conditions, with absolute economy and impregnable against interference. The telegraph apparatus must be capable of sending 1000 miles and receiving 3000 miles with telegraph apparatus for sending and receiving 200 miles.

In the experiments the battleships Connecticut and Michigan, which will be at sea with the Atlantic fleet, participating in the summer maneuvers, will take part. They are being equipped with apparatus having a sending range of 2000 and a receiving range of 3000 miles.

The army's greatest interest lies in the wireless telephone.

General Allen has at his disposal about \$30,000 to be used in purchasing suitable apparatus for the army's use. Extensive use will be made of the wireless telephone during the Atlantic fleet's summer maneuvers. The vessels which will participate in the maneuvers are being equipped with apparatus capable of a radius of 300 miles.

Only a few of this class of vessels now have wireless telephone equipment.

MAHMOUD PASHA

Is Looked to, to Preserve Order

CONSTANTINOPLE, May 17.—Mahmoud Scheffer Pasha, commander of the Turkish constitutional forces, both land and sea, is the man most frequently in the thoughts of those observing or dealing with the confused situation of the day in Turkey. He is the one quiet figure upon whom rests the preservation of order, and the civil branches of the government look to him to impose their liberal rule upon the empire and to deal promptly with persons or factions dangerous to the state.

The skill and energy with which Gen. Scheffer brought the Third army corps and part of the Second army corps before Constantinople and occupied the capital, has amazed the foreign military men here. Besides those attached to the embassies, seven officers came from Germany and five British officers from Egypt to observe the development of the campaign. They have not ceased to discuss the details of the constitutionalist commander's arrangements.

Gen. Scheffer has been something of a man of mystery, which impression he has been taking trouble in recent days to remove. He called in succession during the past week every ambassador and minister in Constantinople and upon those Turkish subjects holding high positions, such as the Greek patriarch and the Armenian bishop, representing the various political parties. He has talked modestly with the idea of checking the spreading notion that he is virtually dictator, and that he is virtually emperor, and that he is virtually emperor.

"The army is merely an instrument of civil power. The army and I are an officer in it, derive our authority to establish order from the national assembly. The army is a danger of parliament only and works under the will of the cabinet."

The general had an hour's talk with Hild Pasha, the grand vizier, yesterday, at the conclusion of which he said:

"The grand vizier and I are in perfect accord."

Later, in conversation, he said: "We have obstacles to overcome in our progress toward free and stable institutions. I have hopes that we will rise above them."

The disorders in Adana province, Gen. Scheffer said, were in process of solution. The court martial there could be trusted to make a thorough investigation and provide adequate punishment for the guilty. The situation in the Fourth army corps, he said, was quiet. Headquarters at Thessalonika had been the most of the mutineers, and no more were having been arrested.

In conclusion, Gen. Scheffer said: "We desire very much to have the people with sympathy and in full support of the government. We are working toward this end."

REV. MR. EARLS, S. J.

Able Lecture on Poetry and Music of Erin for Irish League

It was a large and appreciative audience that greeted Rev. Michael Earls, S. J., at Associate hall last night when he lectured upon the "Poetry and Music of Ireland" under the auspices of the United Irish League. So extensive was the only difficulty he seems to have in the course of his lecture is to decide what to omit in order to touch upon every important phase of the theme in a single lecture.

On the platform with the speaker were Rev. John T. O'Brien, St. Peter's church, Mr. Michael Burke, president, Mr. Hugh J. Molloy, the Normal school, Mr. William E. Maloney and Mr. E. J. Gallagher.

President Burke opened the meeting in a brief address, in which he stated that the event was conducted for the United Irish League for the advancement of Ireland's cause, not so much for the purpose of raising money as for the purpose of rapidly progressing towards the goal of freedom under the leadership of Hon. John E. Redmond and his gallant band of patriots.

He then introduced as chairman of the evening the eloquent and patriotic clergyman, Rev. John T. O'Brien, St. Peter's church. The chairman, on making his bow to the audience, got an enthusiastic reception.

Rev. John T. O'Brien

Rev. Fr. O'Brien got a most cordial reception and spoke as follows:

KILLED BY FALL

MAN DROPPED FROM FOURTH STORY WINDOW

BOSTON, May 17.—Joseph Ponomerski, a Pole, met death mysteriously early yesterday morning by falling from a window in the fourth story of a brick tenement building at 133 Edinboro street, North End.

Ponomerski's body was found at least four feet outside the sidewalk curb, giving the impression that he must have shot out of the window with considerable impetus.

The case looked mysterious to the police, that the five companions of Ponomerski, who had been occupying a room with him, were taken to station 1 and questioned, after which they were allowed to go back to the boarding house. The police are continuing their investigation.

Charles Martin, occupying the tenement on the second floor, heard his body strike the street, and by shouting drew the attention of the other occupants and the police about 2:05 a. m.

Joseph Wurvonovitch, who conducted the boarding house, told the police that Ponomerski was a stranger to his companions. Wurvonovitch said that Ponomerski was 35 years old and came from Berlin, N. H., a few days ago.

REV. DR. CHAMBRE THREE TURKISH CONSPIRATORS HANGED BEFORE MULTITUDE IN CONSTANTINOPLE

THE REV. DR. JOHN CHAMBRE

Observes 25th Anniversary of Pastorate at St. Anne's

At St. Anne's Episcopal church on Sunday morning the pastor, Rev. Dr. John Chambre, D. D., who is celebrating this week his 25th anniversary as pastor, preached an anniversary sermon, reviewing the history of the church and the work of his only predecessor, Rev. Dr. Theodore Edson. For all those years he went in and out of these labors began here when

Lowell was a small village of some 1200 people. "Naturally," said Dr. Chambre, "Dr. Edson was known to almost everyone, and he had a most extensive and often intimate acquaintance with those in no way associated with this parish. For all those years he went in and out among his people, and the citizens of

CONSTANTINOPLE, May 17.—Nearly fifty public executions of men concerned in Abdul Hamid's conspiracy have taken place in Constantinople since the old sultan was overthrown. This photograph shows a throng of

people gazing at the bodies of three conspirators hanged from improvised scaffolds at the entrance to the Galata bridge. The authorities found the public executions necessary in order to convince the people that the conspirators were being summarily dealt with. The bodies in most cases were allowed to hang from the scaffolds for many hours before being cut down. The spot where these executions took place is the most prominent in the city, and many thousands of people pass it every hour. The victims were tried by court martial and upon being found guilty were hanged at daybreak. It is generally believed in Europe that Abdul Hamid will suffer some tragic fate before many days in Saloniki, where he was sent after the Young Turks took possession of the capital, the people fear that he will in some way be able to incite an uprising, and all who are known to be friendly to him are being closely watched by government agents.

Lowell, each year adding to his influence, and making him easily the foremost and most revered figure in this city.

"He gained this position by his Christian character, and by his interest in whatever pertained to the real welfare of the community at large. His interest in the educational development of the town was recognized, and his name will forever remain in connection with our splendid public school system."

"But the secret of his power was in that he was a true parish priest and pastor. He never lost sight of his duties as such. With strong conviction, without reserve, and holding back no essential truth of revelation, he preached the gospel of our Lord and Savior, Jesus Christ, administered the sacraments, and reverently and assiduously conducted the services of the sanctuary, in accordance with his ordination vows, and in loyalty to the laws and ways of the church which had made him a priest of God."

Dr. Chambre, in closing, spoke of his own labors here and his relations with the people. "The relation between pastor and people," he said, "is very sacred and intimate—how sacred can be fully appreciated only by one who has been many years associated with

the same families or individuals. He has become a partaker with them of their sorrows and their joys. The secrets of the soul, hidden from all others, become known to him. What revelations are unfolded to his view!

So it comes to pass, that in a very real sense he bears his people on his heart, their wants, their woes, their virtues, their sins, as the high priest of Israel bore upon his breastplate, the names of the twelve tribes, when he entered the holy of holies, to make intercession for them before the Ark of the Covenant of God.

"Care and anxieties and disappointments, sometimes heavy heartaches, have been experienced in these 25 years; yet they have been years of joy, and of deep gratitude to God, and to you, in view of the blessings which have crowned them. The parish, as well, has been uniformly and continuously kind and considerate, and of this kindness and consideration the pastor has been keenly appreciative and with all his heart responds with sincere affection and thankfulness. The relation between the pastor and the official board of the parish, the wardens and vestry, has in no single instance been marred or disturbed. There have always been the most pleasant intercourse and harmony; and he believes that today he has the confidence and love. How grateful he has been for all this he cannot sufficiently emphasize. Doubtless there has often been opportunity for difference of opinion, and of views, but never has there been other than Christian kindness and consideration in the furtherance of the things pertaining to the kingdom of God."

"God has granted this gracious relationship of pastor and people for 25 years. What other years shall bring to him or to them, is wisely hidden in God's loving care. To him is left the future in the calm truth, that He will surely do all things well—that He will follow with his loving kindness and tender mercy—that as we are true and faithful still He will crown this parish with manifold spiritual blessings, and with the prosperity that shall be wisest and best. To His unfailing love and care, you, my beloved people, are commended today, and forever!"

GIRL COLLAPSED

WHEN SHE WAS PLACED UNDER ARREST

PLYMOUTH, May 17.—Miss Ethel Hanley, a maid formerly in the employ of Augustus D. Batchelder, is in a serious condition. It is said, at the Plymouth police station. She was arrested early yesterday morning in Boston by Inspector Wise of the Boston police department while

on her way to the bedside of her mother, who is said to be dying in Montreal. She is charged with the larceny of a suit case, pocketbook and jewelry, valued in all at over \$30, the property of Mr. Batchelder. Miss Hanley claims that she took nothing but her own property.

When brought to Plymouth by Constable A. J. Horgan of the Plymouth police she was in a hysterical condition, and despite the efforts of the police, could not be quieted. She claims that the arrest is an injustice and that her mother needs her aid. She was arraigned in the Plymouth district court this morning.

Today the biggest and best show in Lowell was produced. It consisted of two big vaudeville acts, a talking picture, motion pictures, illustrated songs and renditions by the singing orches-

familiar ballad "Silver Threads Among the Gold." The feature picture "The Hunters Grief" is an exceptionally good one and the makers have taken a great deal of trouble in putting it on in just the right way. There will be plenty of fresh, clean and laughable comedy and a good selection of dramatic subjects besides the feature picture.
